

HEALTH EDUCATION NEED IS STRESSED DURING WAR TIME

Jackson County Health Assn.
Places Enlightenment at
Head of Year's Program.

Realizing the greater need for preservation of health during war, the Jackson County Public Health association, an agency member of the Community Chest, has placed health education at the top of its project list during the past two years. Still greater emphasis will be given health education in 1943. Mrs. Elwood Hedberg, president, announced yesterday in giving a brief resume of just what the association does.

The association is assisting in financing the prenatal clinic conducted here by the army personnel, another project growing out of the war.

\$772 For X-Rays
As in previous years follow-up work was carried on in all tuberculosis cases in the county with \$772 spent on X-rays during 1942. This sum paid for more than 220 X-rays. In this same program the association spent \$350 for milk, which was supplied to tubercular people. A broad rehabilitation program for persons recovering from tuberculosis has been carried on by the association for several years. This program enables persons who must change their trade or profession because of tuberculosis to train for jobs they can fill.

The association assists each year in payment of salaries of the public health nursing staff, enabling this county to enjoy wider service than would otherwise be possible.

The Alex Sparrow Memorial clinic in the county courthouse is maintained by the association. The annual tuberculosis clinic, conducted there by Dr. G. C. Bellinger, is also made possible by the Jackson County Public Health association.

Each month the association conducts an infant and pre-school clinic.

The three isolation cottages, constructed a number of years ago for care of tuberculosis cases awaiting entrance in the state sanitarium are still maintained by the association and are expected to see more service because of the shortage of beds in the state institution caused by a lack of labor.

Nurses To Institute
The association recently shared the expenses of sending seven nurses from this county to the institute for care of patients with infantile paralysis, conducted in Portland by the state board of health.

Dental care is made available to all underprivileged children in the county by the Jackson County Public Health association.

While the association is a member of the National Tuberculosis association and the sponsor in this county of all work for the prevention and control of tuberculosis, it is equally interested in the control and cure of any disease that threatens the public health.

The association is ready at all times to assist the Jackson County Public Health department in any problems found in this region.

ATTRACTIVE GIRLS USED BY 'MIND' IN FORGERY SET-UP

Chicago, Oct. 15—(AP)—A hunchback printer was described by police today as the "master mind" behind six attractive girls charged with posing as war workers and cashing \$250,000 worth of cleverly duplicated payroll checks.

The printer, Walter Pelka, 29, was arrested at his hotel. The girls were rounded up at various night spots and taverns.

They were arrested on complaints filed by 30 war plants who charged that their payroll checks had been duplicated, as well as identification badges worn by their employees.

Police said Pelka printed the spurious checks and used the girls to cash them. The girls, who wore plant identification badges, cashed the checks at currency exchange offices and hotels, they told police.

Two of the girls, Grace Geiger, 25, and Mary Engle, 27, estimated they had cashed checks totaling \$40,000. They kept \$900 as their share, they said, and turned the rest over to Pelka.

High School News By STUDENT REPORTERS

By Joan Mole and
Viladean Halgren

This year students of Medford high may learn about aircraft sheet metal and will receive one credit for 112 hours of work, which amounts to 1 1/2 a day, stated Mr. Harold Van Hoosen, instructor of the course. The work is considered an essential war job as the students learn the use of tools and aluminum alloys. This knowledge leads to making miniature airplane parts.

Mothers, dads, and outsiders may attend the classes as well as the students. If desired, enrollees will be placed in a job with a beginning salary of 89 cents an hour. Anyone inter-

ested in this course should see Principal L. B. Mayfield or Mr. Van Hoosen in the shop between 12:45 and 6:45 p. m.

Students who have completed the course are: Delores Curtright, Ellen Lyons, June Nisson, Edith Saunders, Lauretta Shaffer, Lorraine Fletcher, Phyllis Thomas, Milton Kornstad, Dixie Bishop, Robert Funk, Donald Mentzer, Donald Smith, Gale Smith, Jerry Warren, Bob Jones, Robert Kruggel and Walter Neel.

In spite of the rumors that there might not be a school annual this year because of war shortages, Medford students are now assured of a better-than-ever annual. "Rationing will not affect any major phase of the book," stated Miss L. K. Phillips, adviser of publications.

Randall Lovejoy has been appointed editor of this year's Crater and Lowell Cooley, associate editor. Other members of the staff will be announced in the near future.

Art classes this year, under direction of Miss Susan Karstrom, have arranged the first in a series of exhibits in the showcase in the front hall. The display is a group of colored chalk scenes of the local vicinity. Included are architectural designs by Jerry Liebman, who plans to follow this line of work; and 40-minute sketches by Don Peterson, Jerry Liebman, Gray Watson, Dorson Hewitt, and Joan Chamberlain.

"The students are very enthusiastic about their work and several show great promise," stated Miss Karstrom.

Several new members have been added to the 43-44 Girls' league council. They include: Virginia Hammond, Joanne Utz, Phyllis Field, Viladean Halgre, Joan Mole, Ruth Dow, JoAnn Humphrey, Vernon Tye, Pat Newman, Betty Baker, Regina Smith, Betty Medley, Mary Glascock, and Betty Jane Johnson. These girls have met several times this past week to plan coming events.

The first affair scheduled by the council is the dance spon-

sored by the Girls' league for having lost the annual A. S. B. ticket sale. This is the first time the girls have lost this contest and they promise a good dance. It will be held following the Eureka game October 29 and its theme will be that of Halloween. The dance will be conducted in the Sadie Hawkins day tradition, with the girls asking the boys.

Rajah Norman House recently announced that members of the Tiger Guards for the coming year would be: Al Boucher, Don Fairweather, Don Folk, Charles Gerhardt, Dave Grubb, Dick Hake, Wilfred Hansen, Alton

Mix it!

Clicquot Club Sparkling Water is a mellow mixer. Bubbled carbonation gives it tiny, lively bubbles. Keeps a drink fresh right down to the last sip.

Clicquot comes in full 22-oz. quarts.
