HEALTH TALKS

HEALTH from WITHIN

We all desire health. But many times we do not desire it with such zeal as impels us to give up that which impedes health. Health is not an outside substance to be taken into the body. This seems to be a belief too strongly fastened upon the race consciousness.

Health is a state or condition of existence. Health is not from the outside in, but from the inside out. This is the law of biologic being. The supply of proper materials and normal nerve function and circulation are essentials. Structural distortion impedes normal nerve functions and interferes with proper circulation to the vital organs.

Red Cross Lecture—Mrs. Justin Smith will lecture on Red Cross history tomorrow, Dec. 14 at 1:45 p. m., in the high school auditorium for junior and senior staff assistant recruits and for hospital and recreation corps recruits. The lecture is obligatory for all recruits in these three groups, according to Mrs. Fred Rankin, executive secretary.

Cafeteria Closed—The junior high school cafeteria was closed today, and will remain closed for a few days due to the illness of Mrs. Virginia Waite, cooking instructor at the school and manager of the cafeteria. It was announced today by E. H. Hedrick, superintendent of the city schools. Mrs. Waite was stricken with flu this weekend. Superintendent Hedrick also stated that all city schools will close Dec. 17 for Christmas vacation. The present semester will end Jan. 28, and the second semester will commence Jan. 31.

TRIBUNE DELIVERY SERVICE HARD HIT BY FLU EPIDEMIC

Persons who do not get their copies of the Mail Tribune as early as usual or who fail to receive them at all, were asked today by Circulation Manager Gerald Latham to be tolerant. He explained the sketchy service by stating that most of the high school boys usually relied on to work as carriers are now employed in stores and that smaller boys, less experienced, are handling the routes. Complicating the carrier problem is the shortage of even the younger boys and the current flu epidemic which has taken many off the job temporarily.

Citing an example of his problem, Latham said that Friday afternoon 9 out of 30 boys handling regular city routes were ill, and that only 2 regular substitutes were available. Delivery of the papers was accomplished only by doubling up some of the routes, with some of the boys doing the work of two or three.

Difficulty was experienced in delivering the Sunday paper on route 16, in the northwest corner of town, when both the regular carrier and substitute were ill, the fact not being discovered until 7:30 a. m. Harold Skinner, another carrier, and Verne Shangle, Jr., a substitute, together handled three routes Sunday, finishing the last route, 16, about 11 a. m.

Latham stated today that persons failing to receive a copy of the Tribune should telephone the Tribune office between 6 and 8:20 p. m. the same day on week days, or between 9 and 10 a. m. on Sundays. Those who fail to call during those hours should call the next morning rather than waiting until the next afternoon. He also asked that subscribers not call the homes of Tribune employees for service, as no gasoline is allowed them for single copy deliveries.

DRAFT STATUS OF PRE-WAR FATHERS CONTINUES PUZZLE

Confusing Statements Over Week-End — Prospect Million be Called by July.

Washington, Dec. 13.—(U.P.)—The father draft issue remained a complicated puzzle today after a week-end of confusing statements that did nothing to alter prospects that about 1,000,000 pre-Pearl Harbor fathers may be included by July.

But even that number may be reduced as result of two prospective developments still in the study stage. These were:
1. A plan to cancel all occupational deferments now held by men in the age group from 18 to 22.
2. Possibility that the army and navy will agree to relax physical requirements so that some of the estimated 3,600,000 single and childless married men classified 4-F can be inducted.

Age Group Confusion
Chairman Andrew J. May, D. Ky., of the House Military Affairs committee, had announced that selective service would draft fathers by age groups starting with those under 22, but this subsequently was said to have resulted from a misunderstanding of the proposal to cancel deferments for the 18-22 group, which includes only a few pre-Pearl Harbor fathers.

Figures presented by selective service officials gave this picture of the draft problem:
The total strength of the armed forces now is 10,100,000 of which 7,400,000 are in the army and 2,700,000 in the navy. To reach goals for July 1, 1944, the army will need 300,000, the navy 800,000 and replacements about 700,000, or a total of 1,800,000.

Three Million Deferred
To fill these requirements there are about 100,000 youths coming into military age each month but less than half available for selective service, or less than 300,000 available by July. In addition there are about 3,000,000 men deferred for war jobs or service in agriculture and possibly a fifth of this number, or 600,000 could be reclassified. Together with teen age draftees, this would make available a force of about 900,000 men, leaving still another 1,000,000 to go, and the largest pool of men remaining would be that made up of pre-Pearl Harbor fathers.

Bellamy's Leaving—Lt. and Mrs. Boyd P. Bellamy and son, Gary, will leave tomorrow night for Tampa, Fla., where the lieutenant will report for duty. The lieutenant has been here on a brief leave following his graduation from Kirtland Field, Albuquerque, N. M., as an aerial bombardier. Mrs. Bellamy, their son and Lt. Bellamy's mother, Mrs. Clarice Prince, South Pacific highway, were in Albuquerque for the graduation ceremonies and all four returned to Medford Thursday.
