HOMEOPATHIC TREATMENT OF POISON IVY

The essential principles of homeopathy as a "school" or system of practice, founded by Hahnemann 150 years ago, are almost forgotten today, although Dr. Hahnemann and his teachings served a great purpose and restored a degree of sanity to medical practice which was anything but rational before his day, what with bleeding, salivation, purgation, blistering and other drastic methods, which in too many instances, made the treatment worse than the disease. Even if we now believe the cures attributed to homeopathic treatment (minute doses of the drug the practitioner thinks will produce similar symptoms) are really due to natural powers of recovery working unhindered, still we must admit that Hahnemann contributed much to medicine and some of his teachings are employed in practice by most good physicians today.

In saying this I do not endorse or approve of homeopathy or any other so-called "school" of medicine, least of all "allopathy" which never was a system of practice anyway. In my opinion a healer who purports to be a homeopathist, an allopathist, an osteopathist or anything other than a physician fitted by education, training and character to employ whatever method of treatment the patient needs in his judgment, is exploiting the ignorance and credulity of the public.

One good instance of the use of a homeopathic principle in everyday practice is the treatment of ivy poisoning—perhaps the best treatment we have today. I mean the hypodermic or rather deeper muscular injection of a minute dose of the poison itself for quick relief and cure of ivy poisoning. In many cases a second dose is advisable after 24 hours; in some cases even a third "shot" may be required to complete the treatment. The poison ivy extract, antigen, toxin or homeopathic dilution of Rhus toxicodendron used for this purpose is supplied to physicians by most of the large pharmaceutical manufacturers.

Detailed instructions in pamphlet on Ivy Poisoning, mailed on written request (no clipping) if you inclose stamped envelope bearing your address.

QUESTIONS & ANSWERS
Vinegar Baths
I am taking vinegar baths. Do you advise such treatment for piles? Will you please send me a pamphlet on piles? Send it to General Delivery, I. K. S.

Answer—Send stamped envelope bearing your address, for pamphlet "It Stupid to Suffer From Piles." For all the good it will do you may as well throw the vinegar over the left shoulder in the dark of the moon.

Atrophic Rhinitis
Several doctors have told me I have atrophic rhinitis, but they do not tell me what to do about it. (T. R. L.)

Answer—Otherwise called atrophic catarrh or, if feid odor is a symptom, ozena. Instructions for use of some remedies in booklet "Call It Crip"—for copy send twenty-five cents and stamped envelope bearing your address. The condition is not dangerous, just disagreeable.

Hi, Mike, Are We Slesher?
I usually approve of everything you say. But my Mike, aged 3, likes a little or (proprietary) food nostrum with his milk, and as both of these contain some chocolate I wonder if you would approve of it. (Mrs. G. H.)

Answer—Oh, I suppose it doesn't matter whether sugar is used to persuade states to take their milk. Tough guys take their's straight and make no fuss about it. For everyday nutrition or course straight milk is superior. Mike is lucky to have all the plain pure fresh milk he wants and if you don't start monkeying with it he'll probably take it and like it without all the fussing. (Copyright, 1944 John F. Dille Co.)

On the Radio Chains TENANT EVICTION RULES GIVEN BY RENT DIRECTOR

Protection Is Given Renters Against Spurious Sales For Purpose of Eviction. By Don C. Wilson, Associate Rent Director, O.P.A.

In case of sale of property occupied by a tenant of the seller, the buyer generally must assume the landlord's responsibilities to the tenant for a period of three months. To obtain the eviction of the tenant it is necessary that the purchaser require the property for his own occupancy as his home. The tenant is protected by the rent regulation against spurious sales agreements which would have the effect of evicting him sooner.

In such cases, either the seller or the buyer must complete a petition form under the rent regulation for a certificate relating to an eviction form secured from the rent control office. Without such a certificate a tenant may not be evicted on these grounds. The petition form must be accompanied by affidavits by the seller and the buyer showing in at least 20 per cent down payment was made by the buyer from un borrowed funds. This again is to protect the tenant against fake sales with the purpose of his eviction.

When this petition and affidavits are filed, copies are sent to the tenant with a form asking for his comment. If this form is not returned within five days the file is examined, an order prepared and sent to the rent director for his signature. The order is signed in duplicate. The petitioner gets the original, the tenant the duplicate. This order provides that the petitioner may take his legal means of eviction at the end of a ninety-day period, beginning from the date of the order.

Other Common Evictions
No certificate is necessary where the following conditions apply, but a copy of each notice necessary should be filed with the local rent control office on the same day it is served upon the tenant.

(1) If the tenant refuses to renew his lease upon the same terms as his expiring lease. This is a ground for eviction only when the lease is for a term not longer than a year and contains nothing contrary to the rent regulations.

(2) Where the tenant refuses the landlord inspection or to show to a prospective purchaser unless such access is contrary to the terms of a tenant's lease.

(3) Violation of a substantial part of the rent agreement such as maintaining a fire hazard on the premises. However, the landlord must give the tenant written notice to cease such violation and a reasonable opportunity to do so.

(4) Committing a nuisance or using the unit for illegal or immoral purposes.

(5) Where the landlord wishes to do extensive remodeling or alteration which cannot be done practically with the tenant in occupancy. Where these grounds are used the landlord must furnish the rent director with documentary evidence of the necessity and a copy of the building permit where such is necessary.

(6) When the landlord wants to use the dwelling for his own home, providing he bought the property before the effective

date of the rent regulation. (7) Where the regular rent is in arrears. (8) Where a tenant's lease has expired and at its expiration he is subletting and not occupying any portion of the dwelling himself. In any case of doubt as to the eviction of a tenant under the rent regulation, whether the doubt is on the part of the landlord or the tenant, the local rent office should be consulted and in exceptional cases, a certificate relating to eviction must be issued by the rent director.

The Medford defense rental area comprises all of Jackson county. The rent control office is in the council chamber of the city hall in Medford, and is a part of the War Price and Ration Board set-up. The telephone number is Medford 7126. Mrs. Evelyn Wamberg is the secretary. Any correspondence should be so addressed and office hours are from 9:30 to 4:30 daily; Wednesdays from 6:30 to 8:30 p. m., and until 12:30 on Saturdays.

Copies of the regulation and a pamphlet of questions and answers on federal rent control are available at the office, or by mail, and contain the answers to most questions of landlords and tenants.

Allies To Clear Channel Is Boast
Headquarters 21st Army Group, June 16—(U.P.)—Admiral Sir Bertram Ramsey, commander-in-chief of Allied naval invasion forces, predicted today that the "English channel will soon be completely ours," after which the ferrying of men and supplies will simmer down to an ordinary transport operation.

Ramsey made the statement to war correspondents at one of the ports from which invasion craft have sailed daily since D-Day.
