YOU'LL LOVE MUSTARD WITH A DASH OF HORSE RADISH

Jelly beans are given their characteristic shape when hot syrup, fed into powdered cornstarch molds, forms the sweet centers. After 2 days of hardening in a "hot room," Societe jelly beans are ready for "sugar-sanding" . . . next comes the sweet, flavorful coating. A week of hardening, then "shining up." The candies are spun round and round in huge, copper pans, in which just a touch of honey bee wax is added. They emerge—jewel-bright, yummy Societe jelly beans!

Societe jelly beans, too, march to war. If your dealer doesn't have a supply of this sugary-sweet candy—remember, they're worth waiting for!

WALLACE DETAILS THREE ESSENTIALS TO PACIFIC PEACE

Chungking, June 21.—(U.P.)—Vice-President Henry A. Wallace declared at a state dinner in his honor tonight that he believed there were three essentials to the maintenance of peace in eastern Asia and the Pacific—the demilitarization of Japan, understanding and collaboration among the nations of the Pacific, and self-government among the peoples of Asia.

Wallace spoke after Generalissimo Chiang Kai-shek, expressing confidence in a United Nations victory, declared that peace could be gained by "solidarity and cooperation" of the United States, Great Britain, the Soviet Union and China.

Recalling the Mukden incident of nearly 13 years ago which launched Japan's aggression, Wallace said, "Generalissimo Chiang realized then as we all realize now that the treacherous attack was the opening gun of world-wide fascist aggression." Wallace said that as the eve of the eighth year of China's war with Japan approached, "the tide of Japanese aggression is running its course."

"We have good reason to hope," he said, "that the eighth year will be the final year of Japanese aggression in China, Asia and the Pacific."
