Copied From the Oregonian

WASHINGTON, June 15—(INS)—It was reported Thursday that meat will probably be put back on the ration list next month to correct a bad distribution of supplies.

At the same time it was said that the temporary zero point values for a number of canned vegetables may also be terminated because most of the 1943 pack of canned goods now has been moved off grocer and wholesaler shelves, as planned.

The OPA spokesman said the agency is also debating the canned goods question, with July the probable month for placing controls back on the major point-free processed foods.
