HEALTH and LIFE

Health is a state resulting from the normal action of all the physical organs and functions of an organism in accordance with the laws of its being. Normal action for a living organism is action in an easy, free, and regular manner. Life and health are proportionate to each other. The fullness of life is dependent upon perfect health. The indwelling life equals the state of health. Your value of life may be measured by your value of health. Health is your richest possession for by it is meted out your measure of life. Our capacities for accomplishing, enjoying and helping are proportionate to the vigorous, wholesome life energies. It is foolish to trifle with health, although this practice is quite universal.

PIN-WORMS

At Last—
A Real Treatment!

You may not realize how many of your neighbors—grown-ups as well as children—have Pin-Worms at this very moment. People don't talk about this nasty infection. Sometimes they are too embarrassed to mention the tormenting itching and up to now they have usually suffered in silence because they have not known of any effective way to deal with this dreadful pest that lives inside the human body.

Important Medical Discovery
Today, thanks to a valuable scientific discovery, a remarkable new treatment has been made possible. It is based on a special drug, known as gentian violet. This drug is the vital element in P-W, the new Pin-Worm tablets developed by Dr. D. Jayne & Son, America's leading specialists in worm medicines. P-W tablets are small and easy to take, and they act in a special, gentle way to destroy Pin-Worms.

It is very easy to "catch" this nasty infection, and the ugly creatures can cause real distress. So watch for the signs that may mean Pin-Worms: itching anal, uneasy stomach, bed-wetting, nervous fidgeting. If you suspect Pin-Worms, get a box of P-W right away and follow the simple directions carefully.

P-W means Pin-Worm relief!
