\$3 Million Needed In Demo Campaign Treasurer Asserts

Chicago Stadium, July 20—(U.P.)—Democratic National Treasurer Edwin K. Pauley told the first convention session Wednesday that a \$3,000,000 campaign fund was needed to "carry the bare message to the American people."

He recalled that in 1942, when he took over his present job, the party had a \$750,000 deficit, largely arising from the 1940 campaign.

"Now there is no deficit," he added. The delegates cheered but a moment later he said the present surplus should be exhausted by the time the convention is over.

The \$3,000,000 quota was set by National Chairman Robert E. Hannegan, he said, adding that the party was depending on rank and file democrats to produce the necessary amount.

PLANT OPERATORS INVITED TO MEET TUESDAY EVENING

Representatives of Smaller War Plants Corporation To Tell Aid Available

A meeting will be held at the Jackson County Chamber of Commerce at 7:30 p. m. Tuesday, July 25, by the Smaller War Plants Corporation. This corporation is a government agency organized to give assistance in the field to smaller businesses, which are those firms employing less than 500 persons. It will be outlined how these firms can secure assistance in procuring contracts, materials and repairs for their institutions and financial loans. Assistance will also be given in production of necessary civilian goods, in obtaining surplus government equipment and machine tools, and the many items that are now classified as surplus goods by the war and navy departments.

The meeting should be of particular interest to sawmill operators and loggers, operators of machine shops, foundries, metal fabrications, garages and other firms who may be interested in supplying, servicing, reconditioning or procuring motorized equipment.

The government is now interested in placing orders for servicing and reconditioning motorized equipment and it will be explained how this type of work may be secured by local jobbers, including garages. Surplus equipment should be of interest to any firm of a service nature including laundries, bakers, machine shops and others.

The Chamber of Commerce believes that the meeting will be very helpful to the firms of this county and it is expected that there will be a large attendance.
