

This is War too...

THERE is no question but that FIRE in the forests is a form of sabotage and a serious menace to our war effort . . . LUMBER is a critical war material, of vital necessity to waging successful warfare. Many fires are started by careless, unthinking Americans who pride themselves upon their loyalty to the nation and support of the war. Actually, they start more fires than do avowed saboteurs and lightning. Isn't it time that ALL citizens become "fire-conscious" and lend full support to the all-important "Keep Oregon Green" movement? A serious fire at this moment would destroy precious war material—divert needed manpower to the job of fire fighting, hamper the entire prosecution of the war. The lasting effect would jeopardize our payrolls and economic welfare. We urge every man, woman and child in this area to comply to the fullest with fire prevention laws and rules. We urge mill owners and loggers to carefully check their fire hazards. Let us ALL "Keep Oregon Green" and not forget that every man-made fire is an enemy fire!

Boys and Girls —

Enlist in the Keep Oregon Green Guard! Have a part in the vital program to "Keep Oregon Green" . . . protect YOUR future heritage and the resources of your State and Nation. It's EVERYONE'S responsibility. Be sure you make it YOURS!

THE FOREST FIRE

PREVENTION CREED

1. I Will smoke in the woods ONLY while halted in a safe place, completely cleared of dry or inflammable material.
2. I Will break all burned matches in two before I throw them away, and WILL NEVER throw pipe tobacco, cigar butts or cigarette stubs into brush, leaves or pine needles.
3. I Will scrape away all inflammable material before building a camp fire, then build it in a hole dug in the center of this cleared space.
4. I Will put out camp fires before I leave—stir the coals while soaking them with water; wet the ground around the fire; make certain the last spark is dead.
5. I Will NEVER burn brush in windy weather, or without plenty of help.
6. I Will put out any small fires I find, or report them AT ONCE by phoning the Ranger or Fire Warden.
7. I Will remember that a burning match, a glowing cigarette, or a smoldering camp fire can be just as dangerous as an incendiary bomb . . . that careless matches aid the Axis.
