TWINS TRAVEL BY AIR TO NEW HOME

Los Angeles, July 22.—(U.P.) Military strategists and harassed industry moguls take a back seat on limited air travel tomorrow when a pair of 21-day-old twins are bundled into a TWA airliner, beginning a 1300 mile trip to their new home near St. Louis, Mo.

The twins are Stephen Lloyd and Sharon Loy Bair, children of Warworker Lloyd Bair of Long Beach, Cal. Mrs. Bair died five days after giving birth to the babies on July 1.

After the mother's death Bair was unable to maintain his home and sought to take the children and another daughter, aged five, to relatives in Elkhart, Mo., 30 miles from St. Louis.

JAPS MOPPED UP ON BIAK ISLAND

Allied Headquarters, Southwest Pacific, Sunday, July 23.—(U.P.)—American forces mopping up Biak island off the coast of Dutch New Guinea report an addition 229 Japanese dead and 57 prisoners through Friday, Gen. Douglas MacArthur announced today.

In the Aitape area of northern New Guinea, where an estimated 45,000 Japanese troops have been trying to break through the Allied net, only patrol activity was reported in today's communiqué.

Meanwhile, on Biak, 459 Japanese, Indians and Chinese were reported rescued from the Japanese conquerors.

'TROUT,' HERO SUB OF PHILIPPINES, IS LISTED AS LOST

Washington, July 22.—(U.P.)—An American submarine which helped perform one of the most daring feats of the early days of the war has been lost, the navy department revealed today.

The submarine was the Trout, which slipped into Manila bay under the cover of darkness in February, 1942, to deliver ammunition to the Corregidor garrison and to bring back a fortune in Philippine gold to the United States.

The skipper of the Trout, Cmdr. (then Lt. Cmdr.) Frank W. Fenn, Jr., of Westminster, Mass., has another sea assignment now. But the commanding officer at the time of her loss, Lt. Cmdr. Albert H. Clark, 33, of 35 Irvine drive, Orinda, Cal., was a member of the crew when the Trout sneaked into Manila bay under the noses of Japanese guns.

The loss of the Trout was announced simultaneously with the loss of another submarine, the Tullibee. Both probably were lost in the Pacific, where American underwater craft have sunk 634 Japanese ships, probably sunk 37, and damaged at least another 115.

Total American submarine losses now stand at 27.

The Trout, commissioned in November, 1940, and built at the Portsmouth, N. H., navy yard, had a standard displacement of 1475 tons and carried one three-inch anti-aircraft gun, two machine guns and 10 21-inch torpedo tubes. Her normal complement was 65 men.
