Red Cross Meet To Be Attended By Local Woman

Mrs. Leonard Carpenter of Medford will attend a three day conference of national committee members of the Red Cross Camp and Hospital Council Service, to be held August 29, 30, and 31 in Pacific Area Red Cross headquarters, San Francisco.

During the conference, according to word from the area office, future trends of this Red Cross service will be fully studied and appraised. Special stress will be given to the problems of acquainting additional groups and individuals with the primary function of this Red Cross service; that, through the camp and hospital committees of the individual Red Cross chapters, information may be obtained as to the military and naval needs for furniture and equipment to be used for the relaxation and recreation of servicemen. In addition, through this service, community groups may learn of the needs for personal services for entertainment, hostesses and such courtesy services as shopping and travel information, Red Cross leaders state.

As a member of the national committee, Mrs. Carpenter also assumes responsibilities as a council field representative, in which capacity she visits and works out cooperative functioning of the camp and hospital activities of the 17 chapters within her jurisdiction. Mrs. Carpenter's territory covers Siskiyou valley, coast and central Oregon territories.

THIRD ALL PORK FOR ARMY NEEDS

Washington, Aug. 26—(U.P.)—Hopes for further relaxation of meat rationing appeared definitely at an end today as the government imposed new restrictions on the distribution of pork.

Beginning Monday, the war food administration said, packers must reserve about one-third of all pork production for the military forces. WFA officials said this step was necessary to assure them an adequate supply. The army heretofore has been meeting requirements through purchases on the open market. However, hog marketings are at a seasonal low and are running some 10 per cent behind last year. The trend is expected to continue through the usually heavy fall and winter market period, reflecting a 24 per cent cut in the spring pig crop.
