"Pin Worms Can't Harm MY Child!"

Better learn the Truth, Mother!

You may think that Pin-Worms are just a harmless nuisance. Or you may think that this tormenting, embarrassing infection strikes only certain types of people.

Don't you believe it! Rich or poor, young or old—anybody, anywhere can have Pin-Worms. And these crawling pests, living and growing inside the human body, can cause real distress. So watch out for the warning signs that may mean this nasty infection — the aggravating rectal itch; also, uneasy stomach, bed-wetting, nervous fidgeting and uneven appetite.

If you suspect Pin-Worms, get a package of P-W tablets right away, and be sure to follow the directions. P-W is the new Pin-Worm treatment developed by the laboratories of Dr. D. Jayne & Son, America's leading specialists in worm medicines.

Important Scientific Discovery

The small, easy-to-take P-W tablets contain a remarkable drug (gentian violet) that is being hailed by high medical authorities as the most effective means ever discovered for dealing with Pin-Worms. Thanks to this important new scientific discovery, P-W works in a special, gentle way to destroy stubborn Pin-Worms.

Ask your druggist: P-W for Pin-Worms!
