Two dogs and a cat have been poisoned recently in the Haven street district, according to the Humane Society. One dog belonged to Mrs. L. L. Smylie, 308 Haven street, who also lost a cat, and another to Louis Putman, 330 Haven street.
In many instances individuals who have poisoned animals have been rewarded with some unfortunate deed occurring in their private life or business, according to officials of the Humane Society. In some cases a loss of money, death in the family or other mishaps are reported to have occurred. The bulldog belonging to Putman was taken to the veterinary. Suspects are being investigated, according to the Humane Society.

SQUARE MILK BOTTLE SOON TO BE COMMON
Sapulpa, Okla. (U.P.)—The square milk bottle to conserve refrigerator space will soon be common throughout the nation, officials of the Liberty Glass Co. here predicted recently.
The new "squares" are lighter, shorter and "pour like a pitcher," said one official. They will increase available space 25 to 100 per cent over the old style standard milk bottle, he added.
Production of the square milk bottle, now being made in all standard capacities, followed years of research and study. Leading milk bottle manufacturers throughout the country are standardizing on the square bottle, it was said.
