## WOULD FIX CRACK IN LIBERTY BELL FOR V-DAY PEALS

Cleveland, Oct. 19—UP—The crack in the famed liberty bell, which peeled out American independence in 1776, should be welded so that it can ring out in full tone on V-Day, the Lincoln Electric Co., of Cleveland, urged here today.

The historic bell, housed in Philadelphia's Independence Hall where America's founding fathers wrote the Declaration of Independence, has not sounded a note since 1935 when a large crack weakened its copper and tin structure.

The suggestion to repair the bell was made in a letter to Congressman Sam Rayburn, speaker of the house of representatives in Washington, by W. J. Conley, consulting engineer for the company.

"A study indicated that full tone can be restored to the liberty bell by arc welding," Conley said. "The long-hushed symbol of liberty could again proclaim liberty throughout the land on V-day by the miracle of radio."

Conley urged congress to appoint a special committee of experts from the American Welding society to take "appropriate action" to fix the bell, which is 12 feet in circumference at its base and weighs more than a ton.

## ENJOY INEXPENSIVE PRIZE-WINNING ORANGE MARMALADE

It's Easy To Make Anytime With This Simple Recipe

- 6 Medium Sized Oranges (2 lbs. Oranges)
- 6 Cups Water
- 1/2 Cup Lemon Juice (About 6 Lemons)
- 1 Package M.C.P. Pectin
- 1/2 Level Cup Sugar (Measured ready for use)

1. Cut oranges in cartwheels with very sharp knife to make slices thin as possible. Discard the large flat peel ends. Sliced fruit should weigh 2 pounds.
2. Put sliced fruit in 8-quart kettle. Add the water and lemon juice.
3. Bring to a quick boil; boil gently for 1 hour (uncovered). If peel is not tender in 1 hour, boil until tender.
4. Measure the cooked material. Due to boiling, the volume will be reduced below 7 cups. Add water to make total peel and juice exactly 7 cups.
5. Put back in kettle. Stir in M.C.P. Pectin; continue stirring and bring to a full boil.
6. Add sugar (previously measured). Stir gently until it has reached a full rolling boil, and BOIL EXACTLY 4 MINUTES. Remove from fire; skim and stir by turns for 5 minutes.
7. Pour into jars. If you use pint or quart jars, seal hot and invert jars on lids until Marmalade begins to set. Then, shake well and set jars upright. This keeps the peel evenly distributed throughout.

NOTE: This recipe works equally well with Navel Oranges or Valencia. When either variety is over-ripe and peel is soft, use 1/2-cup Lemon Juice instead of 1/2-cup. (Be sure to discard any seeds.) This recipe makes 7 pounds of prize-winning Orange Marmalade.

## FORMER STUDENT AT MEDFORD HIGH GETS AIR MEDAL
