"SOCK HIM BACK" IS JUDGE'S ADVICE IN WIFE BEATING

Spinster Arbitrator Aroused by Increasing Brutalities Urges Retaliation.

By Marjorie B. Moore
United Press Staff Correspondent
CLEVELAND, O.—(U.P.)—The battle on the "home" front will be stepped up considerably if American wives follow the advice of Cleveland Police Judge Mary B. Grossmann that the "Mrs." meet her husband's blows with a strong counter-attack.

Aroused by the increasing number of wife-beating cases, Judge Grossmann let off a little stored up steam when pretty Mrs. Joseph Gorcy appeared in court sporting a black eye (Wife didn't have dinner ready when hubby got home).

"Don't let your husband beat you," advised the spinster judge. "Beat him up instead."

"Who are these men who beat their wives?" Judge Grossmann wanted to know. "Are they men or are they mice? I'm tired of hearing about men beating up their wives. Wives ought to beat up their husbands for a change. They should use weapons if necessary. That would stop those beatings."

Have Weapons
Cleveland housewives are inclined to follow the judge's advice. They even have weapons—such as rolling pins, brooms, baseball bats, table lamps, book ends—in mind should their disrespectful spouses turn into wife-beaters.

One woman said she believed in a policy of non-resistance the first time. There wouldn't be a second time as she, agreeing with several others, wouldn't live with a man who used her for a punching bag.

One wife said she would get in a good punch herself before leaving her husband. Another would protect herself but would be careful of weapons.

However, a current rumor in Cleveland that a prominent sporting figure who operates a gymnasium is considering starting a class on how to beat up your husband scientifically and effectively is false. The sportsman only admitted that he had toyed with the idea when a young matron applied for boxing lessons to enable her to protect herself from her abusive husband.

The gym teacher added that his boxing applicant was not anxious to injure her husband to such a degree that his earning power would be impaired. Meanwhile, Mrs. Gorcy, whose complaint started all the discussion, said she will follow Judge Grossmann's advice "if it is necessary."

Didn't Mean Guns
But two days later, Judge Grossmann came back with an explanation that by weapons she did not mean guns or any other dangerous pieces of artillery. "I meant something like a broomstick—or a kick in the shins will do," she said. She suggested that a whipping post be set up for wife-beaters. "They're bullies when they beat up their wives," she said.

FATS FOR SAILORS

Lines that moor P.C. boats must be as strong and durable as human ingenuity can make them. Here at Consolidated Shipyard in Morris Heights, N. Y., is W. J. McCloud, tying coils of the steel marine rope that fills the Navy's specification. By-products of used kitchen fat are needed to process this tough marine rope.

"But when they get to court they're as meek as lambs."

As for her spinsterhood disqualifying her from good judgment on the subject, Judge Grossmann said: "I know more than most married people from my experiences in court. If I were married, I wouldn't let my husband strike me."

CALL STOPS SERMON
Beverly, Mass.—(U.P.)—The word of God is competing with the voice of the law over the public address system of the First Parish church where "calling all cars" frequently breaks in on the stillness of the service. The Rev. William H. Gysan, pastor, regrets that the interference is only a one-way proposition. "The parishioners hear the police calls," he laments, "but the police do not gain the benefits of the sermon."

Building Permit—T. H. Richmond made application in the city superintendent's office yesterday for a permit to reshingle his residence at 1032 North Court street.
