## FORD PRODUCING JET PLANE ENGINE

Wright Field, Dayton, O., Oct. 24—(U.P.)—The V-1 robot bomb, Germany's "vengeance weapon," has been studied, reconstructed and fired by the air technical service command which is seeking to turn the bomb's secrets to the allies advantage. It was announced officially today.

The ATSC officials said that to give their expert a quantity of robots for actual launching tests, component parts are being produced in quantity by private manufacturers. The Ford Motor company is producing impulse engines.

The robot consists of a streamlined fuselage with stubby wings over which is mounted a tube containing an impulse jet engine which is powered by gasoline. The motive power comes from a series of rapid explosions in a combustion chamber which follow the line of least resistance, and open the rear of the tube, and drive the aerial bomb forward.

## MAQUIS SAID IN ATTEMPT TO WIN SPAIN Foothold

London, Oct. 23—(U.P.)—Spanish republican maquis, penetrating as far as 10 miles across the frontier from France, have captured four villages in the Pyrenees in skirmishes with Gen. Francisco Franco's regular army, a Barcelona dispatch acknowledged today.

Republican sympathizers in London called the action the "first step" by the republicans to win a foothold in Spain since their defeat in the Spanish Civil War in April 1939.

(A blue network broadcast from Paris said 20,000 Spanish partisans were reported operating in the mountains of Spain, with more recruits going over from Franco's army every day.)

**Moscow Sympathetic**  
Radio Moscow appeared sympathetic with the Maquis in a broadcast quoting the authoritative Soviet publication War and the Working Classes, as asserting the future security of Europe "requires that the hot-bed of Fascist infection in Spain be totally liquidated."

The broadcast contended that Spain was continuing to supply Germany with raw materials and was acting subversively in South America. It accused Russia's western Allies of adopting a "soft" attitude toward Spain.

**Civil War Revival**  
Though the clashes in Spain still were on a small scale, the London Sunday Pictorial said a revival of the Civil War—or at least a serious attempt to revive it—could be expected "at any time."

"The situation there is inflammable to the point that in Madrid, Franco's supporters already are having their movements marked down (by republicans) and the people are talking openly of the night of long knives," the Sunday Pictorial said.

McNarney will be deputy to Supreme Commander Gen. Sir Henry Maitland Wilson, succeeding Lt. Gen. Jacob L. Devers, now in France.

Devers went to France to take command of the newly-formed 6th army group under Gen. Dwight D. Eisenhower.

McNarney also has been designated as commanding general of the U. S. Mediterranean theater of operations by the U. S. joint chiefs of staff.

Lt. Gen. Thomas T. Handy, U. S. army chief of operations, has been appointed deputy chief of staff succeeding McNarney.

Maj. Gen. John E. Hull, of the operations division of the war department general staff, will succeed Handy as chief of operations.

## SHADY COVE TO HAVE CARNIVAL FRIDAY EVENING

Shady Cove, Oct. 24—Shady Cove has but one paramount interest at the moment, all thoughts being concentrated on the grand Halloween carnival on October 27, starting promptly at 8 p. m. at Shady Cove school.

This is not just another carnival. It will decide the vital question of whether the children do or do not have the so badly needed school equipment and the movie projector which will give them the educational advantages other schools enjoy.

A great deal of intensive planning and effort have gone into the project to assure features which everyone from the oldest to the youngest will enjoy. A number of diverting entertainment booths will be provided.

The prize cake makers of the district have been solicited for the cakes which will be sold. A toothsome and refreshing array of confections, drinks and "good eats" will be available at the refreshment and candy booths.

Principal diversion of the evening will be bingo. Another interesting feature will be a needlework and gift booth where it will be possible to pick up items which will help to solve that difficult Christmas gift problem. Any donations for this booth, as well as novelties for the fish pond will be greatly appreciated.

A turkey will be the big prize of the evening.

The public is urged to attend and back the children to the limit. An evening of fun and frolic is assured all who attend. The children richly deserve the support of the entire community as they have worked hard and have raised half of the sum set as their goal through the subscription fund.

All friends from Medford to Prospect are invited to turn out for the affair.

## YOU'LL DO ALL RIGHT WITH DEWEY!

## WHO MADE THE JOBS?

These days nearly everybody has a good job at good pay. But where did all this prosperity come from? Who really made the jobs? You know and I know—it was the WAR that made the jobs—not the NEW DEAL! In 1939, after seven years of the New Deal, NEARLY TEN MILLION AMERICANS WERE STILL UNEMPLOYED, according to American Federation of Labor figures! And don't forget that the amount now being deducted from your weekly pay check is bigger because of New Deal peace time extravagances and waste!

IF YOU WANT JOBS AFTER THE WAR... Instead of another W.P.A.—VOTE FOR DEWEY AND BRICKER!

## Oregon Women!

"The U.S. Army Medical Department urgently needs you now"

MAJOR GENERAL NORMAN T. KIRK, Surgeon General U. S. Army.

If there burns within you a sincere desire to do something active and important to help win the war, here is your opportunity. Join the WAC—serve in the Army Medical Department, where women are vitally needed now. You can help bring the war to a quick, successful end. You can help bring our loved ones—your loved ones, perhaps—home sooner. And you can learn a valuable technical skill that may be the foundation of a career after the war.

With the biggest battles of the Pacific ahead, the West must take a still more active part in the war. You are needed here, in Australia perhaps, or elsewhere behind the battlefronts, to give our men the attention they require.

The care and rehabilitation of the sick and wounded is a woman's noblest work. Get into it if you can. If you are between the ages of 20 and 50 and have no children under 14, or other dependents, call at the nearest U. S. Army recruiting station to volunteer for this vital service. Post Office Bldg., Medford, Oregon
