## P.-T.A. Activities

Lincoln P.T.A.  
Not only parents but all those interested in child welfare and the future of our nation should avail themselves of the opportunity to participate in a P.T.A. group.

For parents it affords the opportunity to become acquainted with teachers of their children and the parents of their children's closest everyday associates. For all it is the means of having a part in solving the problems of our youth today and laying the foundations for a more secure world tomorrow.

There is no more urgent or vital task than that of protecting all our children, physically, mentally, and spiritually, for in them lies the salvation of our country's future. It is only through a strong united effort that this can be accomplished.

Lincoln school this year has an enrollment of 268 students. It is hoped the P.T.A. enrollment will be correspondingly large as the need for a strong group is greater than ever. Please send in YOUR membership without delay. It is an opportunity and a duty both to your children and to your community. Membership in a local unit includes automatically

membership in the State and National P.T.A.
