## NATIVES MURDER 20 IN UPRISING

Guatemala City, Oct. 25.—(U.P.)—A large group of native Indians, armed with axes, machetes and warclubs and shouting allegiance to deposed President Federico Ponce, were reported today to have stormed into a central Guatemalan village and massacred about 20 white inhabitants.

Ten other persons in the village were said to have been injured when the rampaging Indians broke into homes and wantonly attacked men, women and children.

Among the victims was a family of 11 in one house. The Indians first killed the man and his wife, broke open a wardrobe where their children were hiding and beheaded one of them. The massacre occurred in the village of Patzica, in Chimaltenango province, in west-central part of Guatemala.

According to inhabitants who fled, the Indians broke into the town, shouting:

"We want the land offered us, we want what Ponce was going to give us, long live General Ponce, long live the liberal party."

## BROUGHER GIVES ROTARY KEY TO LIFE HAPPINESS

An inspirational address dealing with the key to greater happiness was presented at the Tuesday luncheon meeting of the Medford Rotary club by Dr. Russell M. Brougher, speaking at the Hotel Medford, Dr. Brougher urged Rotarians to stand staunchly behind the established community institutions and to keep home life at a higher level while millions of men are away in military service.

Dr. Brougher was the youngest army chaplain in the first world war and, with his father, conducted funeral services for Will Rogers. He is now conducting a series of services at the First Baptist church of this city.

The secret of happiness, according to the speaker, is to "keep in good health, make a habit of looking on the bright side of things, accept cheerfully your own place in life, throw both heart and soul into any task, form a habit of doing good deeds daily and have firm faith in God." Dr. Brougher was introduced by Archie Pierce.

William D. Shannon, Seattle consulting engineer and governor of Rotary District 101, will arrive in Medford this afternoon and confer with officers and committee members of the local club at the Hotel Medford tonight.

## DEWEY RESORTS TO SUBTERFUGE, CLAIMS TRUMAN

Chicago, Oct. 25.—(U.P.)—Sen. Harry S. Truman, Democratic nominee for the vice presidency, said today that Gov. Thomas E. Dewey was "hiding under the bed" in ignoring Truman's challenge that he repudiate eight Republican senators seeking reelection this year.

When he learned that Dewey had declined to comment on his demand, Truman issued a statement which said:

"Just as I feared, Mr. Dewey has neither the courage nor the honesty to tell the American people what he intends to do about these eight Republican isolationist senators seeking reelection and voting records brand them as isolationists and untrustworthy on foreign affairs. Mr. Dewey is hiding under the bed, afraid to answer that question."

### Subterfuge Seen

The statement said Dewey had resorted to "subterfuge" in getting telegrams from five Republican senators and reading only one—from Sen. Wallace H. White, Jr., of Maine—in his foreign policy address last night.

"Mr. Dewey did not read the telegrams from Sen. (Robert A.) Taft, Republican isolationist from Ohio," Truman said. "When I reach Akron I am going to tell the people of Ohio about Sen. Taft's voting record on foreign affairs. It was a mighty bad one."

## TWO WEEKS HELD KILLING FROST OVER

While there has been no killing frost in the central and southern area of the Rogue River valley, one is overdue about two weeks, according to Assistant County Agent C. B. Cordy.

The first autumn frost, as a rule, comes about October 10, but this year it has not yet arrived. Most everything that could be damaged by frost has been harvested, even most of the late garden truck, and ample time has been given flower gardeners to protect their plants.

Cordy predicted one was due any morning, but would not forecast the day.

**"It's the Water"**

Monks discovered centuries ago that a certain type of water made better beer

In 1895 Leopold F. Schmidt discovered an equally superior brewing water in the subterranean springs of Tumwater!

It is widely recognized by scientists and master brewers that one of the most important factors in making good beer is the natural brewing properties in the water itself.

"It's the Water" has a definite meaning when applied to Olympia, which, combined with brewing skill, premium quality grains and hops, and "One of America's Exceptional Breweries," gives Olympia its clean taste and rare good flavor.
