

WORLD WIDE AIR CONCLAVE UNDER WAY AT CHICAGO

Chicago, Nov. 1—(U.P.)—Assistant Secretary of State Adolf Berle, Jr., was expected to strike the keynote of the international civil aviation conference opening here today in a welcoming address stressing the necessity for immediate restoration and expansion of global air commerce.

Berle, the temporary chairman of the conference, will speak to the delegates from 51 countries, believed to comprise the largest international conference in history, at the Stevens hotel where 600 rooms were reserved for the delegations which arrived by special train from Washington this morning.

Only four of the invited nations will not be represented—Russia, which withdrew Sunday after originally designating Ambassador Andrei Gromyko to head its delegation; Saudi Arabia, El Salvador and Guatemala. With the exception of the embro countries, Argentina whose government is not recognized by the United States was the only country not invited.

The Canadian, Honduran, Lebanese, New Zealand and British delegates arrived yesterday. Commenting on Russia's absence, Canadian Minister of Reconstruction C. D. Howe said conference decisions should not be materially affected. H. J. Symington, president of Trans-Canada Airlines, said the Canadians were "sorry" Russia will be absent, but the Soviets "will

be in a position to come into the plan whenever they like." Howe added that he expected the conference to reach "full accord among the nations in the coming great air developments."

Money Fixes Odds In Election Race

St. Louis, Mo., Nov. 1—(U.P.)—Betting Commissioner James J. Carroll said today available money rather than strength of the candidates determine the odds on a presidential race. Carroll still was offering 3-1 odds in favor of President Roosevelt's re-election, but said personally he rated the Nov. 7 contest "an even money bet," and described the betting odds as "way out of line."

GOP bets totaling \$200,000 would shift the odds to favor Gov. Thomas E. Dewey, Carroll said.

Remember Breadlines in Oregon?

It Wasn't So Long Ago, and "THE LITTLE TOWNSEND" Bill Will Bring BREADLINES Back!

Look at the Facts—

This measure, if adopted, would tax ALL GROSS INCOME—at every step of the way, from raw material to finished product, every commodity produced in Oregon would carry on the price tag a staggering tax multiplied at every step. Oregon products simply could not compete!

See What This Tax Will Do to You!

ON THE FARM	IN THE FACTORY
Planting, cultivating, harvesting TAXED!	Production of all raw materials
Every step of food processing TAXED!	Every step in manufacturing
Insurance and marketing costs TAXED!	Insurance and marketing costs
Transportation and retailing TAXED!	Transportation and retailing

It All Adds Up to **R U I N ! !**—For Oregon Farmers & Workers

The cost of living in Oregon would skyrocket; without OPA price controls, no one could afford to buy Oregon products. With price ceilings, almost every wealth producing farm and industry in Oregon would face financial ruin. The Little Townsend Bill would bring breadlines and unemployment back to Oregon!

No One Denies—

that many aged people need help. But no one with a smattering of economic sense would force widespread unemployment in order to provide pensions for everyone over 60, whether they need the money or not.

Keep the Breadlines Out of Oregon!

Have a Coca-Cola = Going our way?

... of meeting a comrade in Northwest Canada

Friendship comes easy to allies devoted to common causes and borders without guns. Have a "Coke", says the Yank sergeant to the Canadian mountie, and he's talking a lingo of friendship that both understand. That's the informal North American way to say Greetings, friend. It's the same informal way to put friends at ease in your own living room, too. From the Yukon to the Gulf, Coca-Cola stands for the pause that refreshes—a symbol of a friendly way to get along with folks.
