Letters Are Read At Last Meeting D.A.R. Chapter

Letters from men who are members of the crew of the U.S.S. L. C. I. boat 609 were read by members of Crater Lake Chapter, Daughters of the American Revolution, during a meeting held October 28 at the home of Mrs. Thomas Young in the Griffin Creek district.

The chapter has been asked to sponsor the boat which means that names of the crew of 29 were listed and each member chose a name, writing letters to the serviceman, sending gifts and taking care of requests. The meeting followed luncheon, hostesses assisting Mrs. Young being Mrs. O. H. Brennehan and Mrs. H. E. Marsh. Gay autumn flowers decorated the rooms of the Young home and the luncheon tables.

DOCTORS AND NURSES ARE RATIONED, TOO!

How good a Nurse could you be—if your Doctor couldn't be reached?

What is a germ? A Stupe? A bed pleat? An inhalation?

When does a patient like to have a chair in bed with him?

When should you use an ice-bag? When a hot-water bag?

Why is it important to know how to make a "hospital" bed?

Can you report to the Doctor on temperature, pulse, respiration...and report accurately?

Can you identify common symptoms—to report accurately to the Doctor until he can get there?

What is the difference between a liquid diet—a soft diet—and a normal diet?

What is the first thing you would do if you suspected measles...chicken pox...scarlet fever?

TODAY, 1 out of 3 doctors is serving our wounded. 15,000 more nurses will be called this year. Yet home medical care will be adequate—doctors say—IF every one of us will cooperate.

DON'T call a Doctor, when it's something minor you yourself could take care of. If you DO call a Doctor, be ready with accurate facts. Instead of being hysterical, be equipped with information that will help him help you—even, if necessary—by telephone.

Learn how to take care of your own...in a Red Cross Home Nursing course. Every American woman must now safeguard her family's health.
