

TWO MEETINGS TO ALLOW PUBLIC TO HEAR DR. BENSON

To provide the widest possible hearing for the noted author and authority on religious education, Dr. Clarence H. Benson, the Ministerial association has arranged two community-wide meetings at which he will speak here Tuesday.

The first meeting will follow a pot-luck dinner at the Presbyterian church at 1 p. m. to which the community is invited. Dr. Benson will speak at 2 p. m. and any who may not be able to come to the dinner can hear him at that time.

In the evening, Dr. Benson will address a united church meeting in the Methodist church at 7:30. He will discuss juvenile delinquency and possible solution through modern methods of religious education. He will also

speak on modern methods of Christian education in the church school dealing with successful methods of teacher training and teaching methods on which he is recognized as one of the outstanding authorities in America.

As an added attraction in the evening meeting, Sam Cassels, missionary representative of the Sudan Interior Mission, will give a short illustrated lecture, showing a bit of the amazing progress of the Gospel among the head-hunters and cannibals of central Africa.

Rev. Harry Hansen of the Presbyterian church said he believed the Ministerial association is making an outstanding contribution to the religious thinking of this community in bringing Dr. Benson here. "Author of several leading books on religious pedagogy and psychology as well as the history of religious education, he is devoting his time at present in helping churches solve the problem of well trained teachers and leaders for youth," Rev. Hansen said.

For many years Dr. Benson was the head of the Department of Christian Education at the Moody Bible Institute, in Chicago, a school of more than 1,200 students and one of the leading Bible schools of the country. In this position he originated the "All Bible" series of Sunday school lessons, now one of the most widely used series of Sunday school lesson helps in America.

STATE SCHOOL SUPPORT AMENDMENT ENDORSED BY JACKSON COUNTY SCHOOL BOARDS

1. COMPARE THE LOCAL DISTRICT SCHOOL TAX YOU PAID LAST YEAR WITH THAT OF THE YEAR BEFORE.

You will note that it was reduced on the average by more than five mills. This is because we voted in 1942 to use some surplus income tax funds to relieve local taxes and \$5,000,000 was applied to that purpose. The schools themselves received no more money to spend than if the levy had been left on real property. But it did make our local school tax burden a lot less. Make this relief permanent and at the same time apply \$3,000,000 more to the relief of local taxes.

VOTE 314 X YES

2. THERE ARE GREAT INEQUALITIES AMONG SCHOOL DISTRICTS IN ABILITY TO SUPPORT SCHOOLS.

With only local tax support many of our districts find it hard to maintain adequate schools. There are great inequalities among districts in their ability to do so. A district that has much property to assess and few children needs to levy only a small millage. A district that has a large number of children and low property values must levy a high millage. Some districts in this county must levy more than twice what another district levy to have the same kind of school. With a state fund bearing part of the cost some of these inequalities, at least, can be leveled out.

VOTE 314 X YES

3. WHY AMEND THE CONSTITUTION

Because of a previous amendment to the state constitution made some years ago, the state legislature is powerless to assume any permanent part in the support of the public schools. Therefore, it is necessary to amend the constitution before any permanent state support of schools in Oregon is possible. To free the legislature to act—

- Talent

They urge you to VOTE 314 X YES both for the benefit of the schools and the taxpayers.

SOUTHERN OREGON'S LUMBER INDUSTRY

Again Asks You To—
KEEP U. S. SENATOR GUY

CORDON

On the Job!

An Experienced, Able Senator Who KNOWS Oregon's Needs In Vital Post-War Years!

SENATOR CORDON, through years of experience at Washington in representing Oregon Land Grant Counties, is an authority on timber resources—the source of vital post-war payrolls. Already he has laid the foundation for Federal assistance in converting the "third of the log," now being wasted, into wood sugars, alcohol and yeast fodders. His membership on important U. S. Senate committees—Commerce, Irrigation and Reclamation, Indian Affairs, Post Offices, and Post Roads and Library—together with his wide acquaintanceship at the Nation's capitol, assure effective and progressive representation for Oregon. Southern Oregon and the entire State cannot afford to have his program interrupted at this critical time. His recognition of Labor's right to collective bargaining, his efforts in behalf of adequate social security for the unemployed and aged, and his energy in advancing the cause of returning veterans further recommend the re-election of this able, time-proven Senator!
