TORNADO SET FOR ARMISTICE CLASH AGAINST ASHLAND

Medford and Ashland football teams are all set for their annual Armistice Day clash, scheduled to be played on Walter Phillips field at Ashland Saturday afternoon at 2 o'clock.

Coach Al Simpson of the Tornado states his team is in fine shape and will be at full strength against their traditional foe. Injuries which have plagued Medford somewhat through part of the season are healed and all of the reserves will be ready to step in when necessary.

John Stromberg, Ashland mentor who claims never to have been beaten by a T-formation, reports his team is also ready for the game with his starting lineup in good condition. Bill Tyson, reserve, has been out of practice all week because of injuries received in the Roseburg game last week and might not play in this crucial tilt. Gordon Peterson, who suffered a broken wrist against Lakeview, will start the game.

If Medford wins this game, arrangements will be made to play Coquille here for the district 2 championship, probably on Nov. 17 or 18. If Ashland should win, Medford will be out of the running for district play-off and will play their regularly-scheduled game with Salem here Thanksgiving Day.

Don Faber of Central Point will referee tomorrow's game with Roland Parks, Ashland, umpire and Earl Schilling, Ashland, head linesman.

Tentative starting lineups follow:

Medford	Pcs.	Ashland
Riggs	le	Faharty
Sheldon	lt	Arant
Cahill	lg	Hall
Cave	c	Newton
Porter	rg	Elliott
Bessonette	rt	Peterson
Merriman	re	Plaskett
Watson	qb	Jandreau
Bostwick	lh	Ramey
Clark	rh	Reedy
Doty	fb	Samuelson

PILUSO MISSES SONNENBURG TO LOSE MAT BOUT

The Gray Mask kept his winning streak intact at Medford armory last night when he took the third fall over Ernie Piluso in a match that had a capacity crowd standing and yelling most of the time.

Piluso lost no time in starting after the Mask and was doing all right for himself until he ran into three vicious head butts and was pinned with a body press. He came back strong and carried the fight to the Mask and had the mystery man reeling under a series of headlocks and body and head punches. After winding his fingers in the mask and throwing the hooded one about the ring, Piluso opened up with three sonnenburgs and applied a body press to even the match.

Piluso continued to carry the fight to the Mask, who appeared groggy as Piluso again opened up with sonnenburgs. After taking four of these in his midriff, the Mask dropped underneath the fifth and Piluso went crashing head-first into a turnbuckle. The blow on the head dazed him and the Mask fell on top for a body press and the match.

Jackson, during the main event, climbed into the ring between the first and second falls and poured advice into Piluso's ear until ejected by Referee Earl Yoskley. He then took to heckling the Mask from beside the ring until city police took him back among the spectators and kept him there.

More than 25,000 prisoners of war will be available to supplement local labor forces in the harvesting and processing of fruits and vegetables, the War Manpower Commission says.

Coming Sunday

Paul Lukas, the Academy Award winner, with K. T. Stevens and Carl Esmond are starred in the dynamic picture, "Address Unknown," starting Sunday at the Rialto. As the added attraction Billy Gilbert and Shemp Howard do the cutting-up in "Three of a Kind."

ENGINES TO GO 150,000 MILES ARE PREDICTED

Detroit—(U.P.)—Automobiles that will run 150,000 miles or more without rebores or replacing engine blocks are predicted by the Budd Induction Heating Co., Inc., through heat treatment of cylinder walls and bearing surfaces.

Chief Engineer Howard E. Somes revealed that heat-treated cylinders used by the Caterpillar Tractor Co., Peoria, Ill., under severe wartime conditions have stood up three to ten times as long as untreated cylinders. "To passenger car owners, this means that an automobile engine that formerly had an average life of 50,000 miles can be expected to run at least 150,000 miles under normal conditions without excessive wear," Somes said.

Ordinary good quality cast iron, known to the industry as "gray iron," takes on the quality of hard steel through induction heat treatment, Somes said, with standard procedures that give the casting fine hardness at a predetermined depth where needed.

Now Used in Munitions
In the plant, where powerful generators produce high-frequency alternating current, Somes showed the process in operation, now concentrated on production of munitions.

An induction coil, slightly smaller than the inside of the part to be hardened, goes inside the piece for one and one-half to two seconds, followed immediately with "quenching" by cold water, controlled for temperature and amount.

Process is Automatic
A single operation, the process is largely automatic and completely controlled for current, time, temperature and depth and area of hardness. When removed from the machine after hardening, the piece will show any defects in the original metal to the naked eye without microscopic examination or other tests.

"Until the advent of the Budd Co. process, inside treating was not considered commercially practicable," Somes said. "By this method, now in daily production, we raise the temperature of metal from 70 degrees room temperature to 1,600 and 1,800 degrees Fahrenheit in one to one and one-half seconds."

Among postwar automotive applications of the process Somes listed treatment of engine components made as integral parts such as bearing races, valve seats, internal gears and splines.

While a better product is the first consideration, Somes said mass production of induction-hardened parts inevitably will result in lower cost and a far superior automobile for a comparable price.

G. P. Frosh Score First League Win

Grants Pass high school freshmen football team chalked up their first win in the southern Oregon junior high league when they blanked Klamath Falls 13 to 0 at Grants Pass. The Cave-kids scored in the first and third periods with Klamath offering but one scoring threat.

Grants Pass meets Medford juniors at Medford Nov. 18 for the last game of the season for the two teams.

NEWBRY TALKED FOR PRESIDENCY OREGON SENATE

Portland, Ore., Nov. 30—(U.P.) Two state senators—a republican and a democrat—each is working hard to gain the presidency of the new senate, which will convene in January, 1945.

Sen. Rex Ellis, R., Umatilla county, and Sen. Thomas Mavens, D., Portland, started full pledged campaigns for the office after the general election Tuesday completed the roster of the legislature.

Political observers believed Ellis is the logical president of the senate, as that body is composed of 25 republicans to only five democrats.

Another possible contender for the seat is Sen. Howard H. Belton, Clackamas county, who was considered for the job during the Stever-Lee deadlock vote during the last legislature.

Other senators who might have a chance at heading the upper house are Coe McKenna, Multnomah; William Walsh, Marshfield, and Earl Newbery of Jackson county.

Eugene Marsh of McMinnville appeared to be assured of being the speaker of the house of representatives.

John Hall, Portland house member who had the support of several members of the coming session, released his pledges to Marsh, after a conference with the McMinnville legislator here yesterday. Previous to Hall's action, it was understood, Marsh already had at least 31 of the 60 house members pledged to him.

Hall is expected to be appointed chairman of the important house committee on judiciary.

Senator Newbery stated today that a number of his friends and fellow legislators had communicated with him regarding the matter of running for the senate presidency but that he was not making an active campaign at the present. "Developments of the next two or three weeks will determine the matter," Newbery stated.

The senator served two sessions as a member of the house of representatives from the sixth district and then was elected to a four-year senate term two years ago. He resides in Ashland and is an orchard owner and warehouseman of that district.

TOO MANY BONDS BEING CASHED IN

Washington, Nov. 10—(U.P.)—The treasury is seriously considering abandonment of its recently inaugurated simplified program of war bond redemption because it has resulted in a heavy increase in cash-ins by individual bond owners, the United Press learned today.

Redemptions through the over-the-counter policy, instead of tapering off gradually as expected by government officials, have continued at record high levels since the program went into effect on October 2.

During the first week of November, sales just barely topped redemptions, aggregating \$110,741,000 against \$109,352,000.

ARMY OFFICER KILLED IN RENO ALTERCATION

Reno, Nev., Nov. 10—(U.P.)—An army officer was shot and killed and an army flight officer sustained a minor wound after an altercation with a civilian outside a downtown Reno hotel early today.

Police took a man identified as Jack Ramsey, said to be a house detective at the Golden hotel, into custody.

Officials at the Reno army air base said 2nd Lt. Wilfred L. Cooper was the officer killed and Flight Officer James Powell was taken to the base hospital with a bullet wound in his heel.

One Army Ordnance factory recently completed the loading of 260,000 tons of bombs.

Forecasting Election Results

Babson Discusses Next Four Years

By Roger W. Babson
Babson Park, Mass., Nov. 10—(Special Correspondence)—Notwithstanding the results of Tuesday, I now make some predictions as to what will happen at Washington during the next four years. These forecasts assume the republicans and conservative democrats will combine to control congress.

Other senators who might have a chance at heading the upper house are Coe McKenna, Multnomah; William Walsh, Marshfield, and Earl Newbery of Jackson county.

Eugene Marsh of McMinnville appeared to be assured of being the speaker of the house of representatives.

John Hall, Portland house member who had the support of several members of the coming session, released his pledges to Marsh, after a conference with the McMinnville legislator here yesterday.

Hall is expected to be appointed chairman of the important house committee on judiciary.

Senator Newbery stated today that a number of his friends and fellow legislators had communicated with him regarding the matter of running for the senate presidency but that he was not making an active campaign at the present.

The senator served two sessions as a member of the house of representatives from the sixth district and then was elected to a four-year senate term two years ago. He resides in Ashland and is an orchard owner and warehouseman of that district.

While a better product is the first consideration, Somes said mass production of induction-hardened parts inevitably will result in lower cost and a far superior automobile for a comparable price.

COUNCIL AMENDS TRAFFIC LAW TO CONTROL WALKERS

The Medford city council, meeting last Wednesday evening because their regular meeting night was election night, revised the local traffic ordinance in order to comply with state laws.

The only two changes are an enactment against pedestrians walking through red traffic signals and a jaywalking ordinance. The jaywalking ordinance reads as follows: "It shall be unlawful for pedestrians to cross any street except at the continuation of sidewalks at intersecting streets or at crosswalks designated by appropriate markings."

The city of Medford, also sold three lots. Lot 1 on Woodland Heights was sold to Mrs. Mina Raworth; lot 1, block 5, Imperial addition, was sold to Leland J. Knox and lot 1, Consolidated addition, number 3, was sold to Grace Edwards.

Livestock

Portland, Ore., Nov. 10—(U.P.)—Livestock: Cattle, 35; calves, 25. Mostly a cleanup market. Few sales steady to weak. Common steers \$10@11. Week's top steers \$14.50. Cattle-corned heifers \$6@8.50. Few shelly cows unsold, bid downward to \$3.

Hogs, 150. Steady. Good-choice 300-320 lbs. \$12.50. Good choice \$12@13.25. Feeder pigs salable \$12.50@14.

Sheep, 50. Steady but mostly nominal. Good-choice woolled lambs quotable to \$12.50. Week's extreme top \$13 on one deck. Few medium lambs \$10.50. Cull ewes \$1. Good ewes salable \$3.25@3.75.

South San Francisco, Nov. 10—(U.P.)—(USA)—Cattle, 30. Generally steady. For week: Receipts 1,200. Bulk follow: Medium to good steers \$13@14; medium to good heifers \$11.50@12; common and medium range cows \$9@10.25; canners and cutters light supply, 25@30c higher, late bulk \$6@6.50. Medium sausage bulls \$10@10.75.

Calves, 15. Package medium calves \$12.50, steady. For week: Receipts 225. Hogs, 200. Steady. Two loads good to choice 180-240-lb. barrows and gilts \$13.25; odd good sows \$13.50. For week: Receipts 2,200. Good clearers \$6-lb. lambs \$14.85, two decks 14-lb. bulk \$15.75@17.75; choice heifers absent; most canners and cutter cows \$3.25.

Sheep, 1,800; active. Native lambs strong to 25 cents higher; good clear choice \$14.40@14.50; common sort-outs \$11.50 down.

Portland Produce

Portland, Nov. 10—(U.P.)—Turkeys—Alive: Government ceiling buying prices, hens and toms for government sale \$9.20c, for civilian trade \$8.20c lb.

Calery—Oregon \$2.20@2.75. Corn—Northwest \$1.75. Lettuce—Local \$1.75. Local \$1.25@1.40 crate.

Chicago Wheat

Chicago, Nov. 10—(U.P.)—Wheat: Dec. — \$1.24 1/2, \$1.25, \$1.26 1/2, \$1.27 1/2; May — 1.50 1/2, 1.50 1/2, 1.51 1/2, 1.52; July — 1.45 1/2, 1.46 1/2, 1.47 1/2, 1.47 3/4; Sept. — 1.45 1/2, 1.46 1/2, 1.47 1/2, 1.47 3/4.

S. F. DAIRY PRICES

San Francisco, Nov. 9—(U.P.)—Dairy market: Butter: 93 score 43c, 92 score

42 1/2c, 90 score 42 1/2c, 89 score 40 3/4c.

Cheese: Wholesale prices loafs 27.9; triplets 27.2. Eggs: Large, grade A 56 1/4; 57 1/2; large grade 43 1/4-44 1/4; medium grade A 51 1/2-52 1/2; small grade A 37 1/2-37 1/2.

Wall Street

New York, Nov. 10—(U.P.)—The main list of stocks pushed forward fractions to more than a point today in response to a number of highly favorable developments. Trading expanded on the movement.

Bullish sentiment grew out of WPB confirmation of a Wall Street report that distillers would be given another "holiday" in which to produce beverage alcohol, disclosure that three of the nation's largest rail locomotive manufacturers soon would be authorized to start work on a \$100,000,000 French government order, and publication of several corporation reports showing increased earnings.
