## Medford Council Entertains For Senior Scouts

In observance of the birthday of Juliette Low, founder of Girl Scouting in the United States, the Medford Council gave a dinner for the Senior Girl Scouts November 3, at the Girls Community club. The program committee of which Mrs. C. A. Thatcher is chairman, had charge of this affair.

The evening was spent playing games, led by Mrs. C. W. Anhorn, and discussing Senior Scout plans for the coming year. Girls in the 9th grade and over are considered Senior Scouts and are divided into interest groups rather than according to neighborhoods or school grades, as is the case with the other Girl Scouts. The Senior Scout program will include such activities as Wing Cadets, a Sports Club, a Hobby Club, a Junior Camp committee, an International club, the Mariners, and a Radio club.

Assisting Mrs. Thatcher on the committee were Mrs. Arch Work, Mrs. Louis P. Older, Mrs. T. E. May, and Mrs. C. W. Anhorn. Mrs. Scott Davis, the council's commissioner, and Mrs. Neil Collins also attended. Miss Maureen Shearer, president of the Business and Professional Women's club was a guest.

"As an administrative body," Mrs. Thatcher said, "the council is apt not to have personal contact with the girls. This is regrettable because a first-hand friendship with the scouts themselves is very stimulating and enjoyable. It is hoped that we can have many more such get-togethers, not only with the Senior Scouts but with the Brownie and Intermediate Scouts as well."

The Senior Scouts who attended this party were: Mary Adams, Joan Blunkall, Ann Butler, Mary Ann Clark, Joan Coleman, Carol Davis, Barbara Earl, June Elliott, Helen Ferris, Joy Finch, Rosalie Gloscock, Yvonne Gault, Mary Sue Green, Jacqueline Hall, Harryett Jones, Corinne LaTourrette, Pat Lawson, Joyce Marshall, Phyllis Merrick, Stephanie Miksche, Nancy Newbury, Marilyn Nichols, Patsy Older, Maxine Powell, Joan Pomeroy, Jacqueline Rhymes, Kathleen Seekatz, Catherine Villas, Evelyn Watkins and Beverly Work.

Mrs. Verna Johnson, R. N., who has been serving as instructor for the nurses' aides, and Mrs. Newbury reported on a recent conference for nurses' aides and corps workers held at Portland.

Trends and aims of the project were reviewed and the women reported that conference speakers had stressed the idea that the war is not over and that much work remains to be done at home on the nurses' aide program. It was brought out that the needs of nurses in the army had been underestimated and that additional trained nurses were being taken into the service daily, making the need for nurses' aides greater than ever. # TIMBER TO TOKYO!

## MEN OF TIMBER—

### You Are Building a Bridge to Tokyo!

Enough timber is going to war to build a four-lane floating bridge from Seattle to Tokyo—a bridge 4,250 miles long! Across it are flowing the tanks, trucks, munitions and men to blast the rising sun. Right now that "bridge" extends to within a few hundred miles of Japanese shores. More logs—more lumber—more pulp—are needed to finish the job! Our fighting men are depending on the men and women in the Western woods and mills.

NOTE: The "bridge to Tokyo" includes plank for pontoon bridges, barges, munition and supply crates, miles and miles of edge-grain decking for every carrier—and all the thousand needs for wood at war.

See the New U. S. Army Film "TIMBER TO TOKYO!"

It vividly portrays lumber in action on fighting fronts around the world . . . how and why lumber is one of the most critical weapons. It's an official Army Signal Corps picture. Ask your theater manager to write and obtain a free copy for showing in your town.
