LT. KEITH GREEN IS AWARDED AIR MEDAL OVERSEAS

An 8th Air Force Liberator Station, England—Award of the air medal to 2d Lt. Keith L. Green has been announced by Lt. Gen. Doolittle, commanding general, 8th air force. The award was presented at a recent ceremony by Lt. Col. Robert W. Fish, deputy commanding officer of this station.

Lt. Green is bombardier on a giant B-24 Liberator operating from this heavy bomber base. Flying many missions over enemy territory, he is taking an active part in the aerial assault now being carried against the enemy.

Lt. Green is the son of Mr. and Mrs. David O. Green, 2719½ 48th street, Longview, Wash. His wife, Mrs. Bonnie Ellen Green, lives with his parents. He was graduated from Medford high school in 1939 and was employed by the Mail Tribune before his entry into the army in January, 1940.

The citation accompanying the air medal award reads: "For meritorious achievement in accomplishing with distinction numerous aerial operational missions over enemy occupied Europe. The courage, coolness and skill displayed by Lt. Green in the face of determined opposition materially aided in the successful completion of these missions. His actions reflect great credit upon himself and the armed forces of the United States."

Lt. Green's parents lived in Berrydale district for several years. His father worked at Medford Co-op. Keith carried the Mail Tribune route in Berrydale district October, 1938, to January, 1940.

GREATER ERA OF IRRIGATION SEEN IN FUTURE PLANS

Denver, Colo., Nov. 17.—(U.P.)—Sighting the opening of a new era of reclamation—a third and greater era of basin-wide developments, William E. Warne, assistant commissioner of the U. S. Bureau of Reclamation here today outlined a post-war reclamation program buttressed by plans for the settlement of returning servicemen and demobilized war workers on family farms.

Speaking before the 13th annual convention of the National Reclamation association, Warne said, "from 1847 when the Mormons diverted City creek to water potatoes in the Utah desert, irrigation has come a long way. It has progressed through two phases of development, and I believe I see a third and greater era of reclamation."

The third era, as outlined by Warne, follows the initial period of simple diversions and patchwork irrigation of the bottomlands along hundreds of streams and the second phase marked by the passage of the reclamation act which brought growth and development of irrigation through the multiple-purpose project.

Pythian Leader To Visit Here Monday

Jesse Crum, grand chancellor of the Knight of Pythias, domain of Oregon, will pay an official visit to Talisman Lodge No. 31 Monday night, November 20, it was announced today.

Pythian Sisters will serve a potluck supper at 6:30 p. m. at the lodge hall for knights and their families and following this will be the lodge session with work in the page rank.

"GREATEST DRUMMER" DIES

Martinez, Cal., Nov. 17—(U.P.)—Max Nickell, 75, called "the world's greatest drummer" by Arturo Toscanini, died yesterday in a hospital here after a short illness. Nickell, whose career was ended by a stroke which paralyzed his right arm, played in John Philip Souza's band, and with symphonies in New York, Philadelphia, Chicago and San Francisco.

Petroleum, coal, lead and zinc make up the greater part of income derived from mineral production in Oklahoma, the University of Oklahoma geology department officials reported recently.

Wall Street

New York, Nov. 17—(U.P.)—Stocks lacked direction today, drifting aimlessly as Wall Street awaited further news of the allied push in Europe.

A forecast of probable big news was read by traders into President Roosevelt's disclosure that he was forced by certain actions in Europe to delay his appearance at his regular press conference by 90 minutes. He did not enlarge on that remark, however.

Outside the main list of stock a number of specialties registered wide gains, particularly among senior utilities. In that group gains ranged to more than 4 points in Standard Gas 7 preferred, which equalled its 1944 top.

YOUR FAVORITE
Permanent anti-freeze is practically non-existent for civilian use. We offer a substitute with a combination that is in wide use by the U. S. army in their vehicles. They use an alcohol base and a General Motors overflow tank. This tank eliminates the alcohol fumes and conserves the anti-freeze. It also forces the steam and water back in your radiator where it belongs. This tank is a great help in summer driving as well as offering you winter protection. The cost is about the same as your favorite anti-freeze. Let us winterize your car.
