Publication of a twice-a-month bulletin through which would be channelled sectional news of the state and expansion of the present Oregon Chamber Executives organization to include presidents as well as secretaries or managers of all chambers in the state was proposed yesterday at a meeting here of a special committee recently appointed to further coordinate promotional activities carried on in the state.

Believing that Oregon's interests and general welfare would be promoted more readily if sectional interests of the state were coordinated in some fashion, Frank Hull, manager of the county Chamber of Commerce and president of the Oregon Chamber Executives organization, generally outlined the plan at a recent meeting in Portland and appointed the committee which met here yesterday. Committee members voted against formation of a new group and outlined the plan to expand the activities of the Oregon chamber executives to carry on the program.

"This committee proposes to foster and effect closer cooperation between Chambers of Commerce, more frequent interchange of information and the institution of joint action on matters affecting the welfare of the state as a whole, and particularly the business elements of the state," a statement drafted yesterday reads. The committee specified that the proposed bul-

## RED CROSS OPEN HOUSE PROGRAM TO BE THURSDAY

Red Cross officials today reminded residents of Medford and vicinity of the open house being held all day tomorrow at the courthouse in commemoration of the anniversary of Pearl Harbor. A cordial invitation is extended to everyone to attend between the hours of 10 a. m. and 6 p. m. Open house will also be held at the Junior Red Cross office in the Holly building.

It is reported that the project to assemble Christmas presents for servicemen at sea on Christmas day is proving very popular. Indicative of the interest is that shown by a woman who volunteered at the Red Cross office yesterday to aid with wrapping the gifts and donated money towards the project. "My son will be en route overseas Christmas Day," the woman said, "and this is the only way I have assuring myself that he will have a Christmas remembrance." Several others have offered aid on the project, voicing a similar reason, officials report.

It is hoped that thousands of gifts will be brought to the courthouse during the open house. Red Cross workers will wrap and box them and they will then be sent to points of embarkation for shipment. This is an all-coast project.

Displays and demonstrations have been arranged for the open house program which will give the visitors a picture of the various Red Cross departments and their functions.

## Grandma Switches Millions of Mothers To Her Mutton Suet Idea For Chest Colds

Pioneer grandma liked to "rub colds" with a "home rub" containing mutton suet. Such a rub was her "old reliable" for relieving chest muscle tightness, soothing bronchial irritation, loosening phlegm, checking coughing, easing stinging of chapped lips and nostrils. Today science has modernized this principle with Penetro, the salve with a base containing this same old-fashioned mutton suet, plus 6 active ingredients—so now Grandma's old idea is switching millions to this newer relief that is being hailed all over America.

You'll like Penetro the first time you feel it spread smoothly on chest, throat, back—its mutton suet makes it melt instantly, vanish quickly. It gets to work 3 ways at once to make you and your children
