Those Who Say
They "Cannot Afford" An Extra**

War Bond

*During the Sixth War
Loan Drive....*

● Some people it seems, can become callous to death and suffering. It is difficult for those little affected by actual fighting to understand the heartaches and tragedies that touch individual lives. For when death and destruction occur on a mass scale, what happens to ONE American soldier doesn't seem quite so important to some folks . . . But, to his parents, wife or other members of his family death means the end of everything . . . it means the end of HIS dreams of a happy home, a family, a future . . . Until Victory has been finally won there's a job to be done by American boys—our own sons, and our neighbors' youngsters. They will fight and die so that we, who still enjoy safety and plenty, may look to this Victory with greater assurance today than ever before. No good American, who soberly reflects upon the price that must be paid to win this war, can afford NOT to do his full share to hasten the day of peace. So, let us all do our full share, little as it may be, to provide the tools for Victory. Let us, in a typical American way, invest to the very limit of our ability in Sixth War Loan bonds. Let us buy proudly for the security of our Nation and the security of our homes in years to come!

This Appeal for Support of the War Loan Drive is Published in Cooperation With the Jackson County Committee and the Treasury Department by . . .
