

CONDEMN PAYING LEND LEASE COIN TO BLOOD DONORS

Sacramento, Dec. 9.—(U.P.)—A resolution condemning the alleged use of lend-lease funds to pay donors of blood for military and civilian use in other nations was adopted tonight by the executive committee of the California department of the American Legion.

The resolution pointed out that the purchased blood program was being carried on in competition with a Red Cross program in which donors give blood without pay for use by the armed services of the United States.

R. H. Chamberlain, Oakland, chairman of the Legion resolutions commission, said the resolution was based on a circular advertisement which bore the name of a San Francisco laboratory and which offered \$4 and free transportation to donors of a pint of blood. He said a Los Angeles firm was carrying on a similar program.

The circular said that the payment was made from lend-lease funds and that it was intended for military and civilian use in all nations.

Earlier the Legion executive committee received a report from the California Joint Immigration committee, declaring that Legionnaires "must be the first" to protect Japanese whom military authorities may return to the Pacific coast.

SEEING EYE DOG OWNER WINS IN COURT HEARING

Houston, Tex. —(U.P.)—Sightless residents of the Lone Star state who manage to live in their world of darkness with the uncanny help of seeing eye dogs are granted the right to take their canine companions into restaurants under a one-year-old Texas law.

The law was put to a test here recently. A local restaurateur was haled into court and fined \$50 and costs for refusing to serve Miss Mary Lee Chambers, 26-year-old blind defense plant worker, because she would not leave Betty, her seeing eye dog, outside the cafe.

In one of the first such cases on record, the blind woman was led to the witness stand by her faithful dog, a big German police.

Betty, trained in Morristown, N. J., by the Seeing Eye Dog Foundation, jumped to the stand and sat at her mistress' feet while Miss Chambers testified the restaurant operator had used abusive language when she told him a law compelled him to serve her, and that she could not go anywhere without her dog.

Testimony revealed that city health inspectors were unaware of the existence of the law and that the cafe man had been warned previously that he could allow no animals to enter his establishment.

"WE'D RATHER SAY YES"

We don't like to tell people that they'll have to wait to get a home telephone. We'd much rather say "yes" to requests for service. That's the way it used to be.

But the needs of war have first claim on available telephone equipment and on telephone manufacturing facilities and manpower. Delays in filling civilian orders just can't be helped.

All of us telephone people sincerely appreciate the co-operative understanding being shown by the many thousands who are waiting their turn to get service.
