BRITISH INSIST ELAS YIELD GUNS

Athens, Dec. 16—(U.P.)—The central committee of the Greek anti-government forces made a conditional offer today to withdraw its forces from Athens and Piraeus, where they were fighting the Greek regular army troops and British soldiers through the streets at the end of the second week of civil war.
Official quarters disclosed the offer was made in a letter to Lt. Gen. R. M. Scobie, British commander of allied forces in Greece.
Scobie replied immediately that the Elases had not agreed to disarm their troops—one of the fundamental differences between him and the Elases leaders—and that if they agreed to surrender their arms as well as evacuate Attica, he felt that other terms could be agreed upon and the civil war ended.

AREN'T WE ALL?

There just isn't room to kid ourselves here about graying hair. That eminent geriatrician, Eben E. Rexford, told the whole truth in ten words, to wit:
Darling, I am growing old. Silver threads among the gold.
A man of 28 or 29, said Dr. Osler, may have the arteries of a man of 60. Longevity is a vascular question (in ordinary language how long you will live depends on the condition of your arteries). As an involution process (continued Dr. Osler) arteriosclerosis (hardening of the arteries) is an accompaniment of old age. (Involution means retrograde evolution, degeneration, premature decline, or, according to Webster it means "presenile decline, marked by the menopause in women and by decrease of vital force in both sexes.")

Now I wouldn't say this if I thought it would go any farther, but just between ourselves I believe if you go all over that again substituting gray or graying hair for arteriosclerosis or hardening of the arteries, you will begin to understand what gray or graying hair really means notwithstanding our popular illusions about it. Like hardening arteries, lessening agility, wrinkling skin and some other manifestations I shall not mention here because heaven knows too many simple-minded ones do themselves harm trying to conceal them, graying of the hair is one of the signs, manifestations, results or symptoms, if you please, of the involution, degeneration, decline or atrophy which Noah Webster defined as presenile decline, but as we are not kidding ourselves here we candidly call old age.

But let's not get sad or worried about it. Anticipation of growing old is worse than realization, as every one at 40 knows if he or she remembers how it

QUESTIONS AND ANSWERS
What a Man!
I used your "Lionel Lincoln" for years. I am now 59, have five sons in service—eight children in all. Feel well and would like to stay that way. May I have the anti-gray hair pamphlet?
Answer—Coming up! Man, it is inspiring just to look at the picture of your handsome family—six sons, two daughters, mother and—for a while I was not sure whether the second from the left is you or your eldest son. If I find myself compelled to quick it in earnest, I'll just print a full page picture of your family with the legend "This man takes Dr. Brady's 'Lionel Lincoln'." Is that all your own hair on top? Brother, where do you get your iodine?
No Poisonous Effect
What gets from eating frankfurters or other meat products which contain the "usual curing agents" sodium nitrite and sodium nitrate (C. H. F.). Answer—Potassium nitrate (salt peter) is used in curing, salting or pickling meats to give a bright red color. It is harmless. Some is converted into potassium nitrite, equally harmless. Sodium nitrate (Chili salt-peter) likewise.

Hunters Shoot Up Texas Phone Lines

Houston, Tex.—(U.P.)—Sharp-shootin' Texas dove hunters, those nimrods who occasionally miss their mark, caused three times as many breaks in telephone lines during September as in any other month this year.
Fearful that the nation's wartime communications system may be impaired at the present rate, A. L. Edmonson, divisional commercial superintendent of the telephone company, extended a plea to marksmen to watch their shots.
