NEW kind of ASPIRIN tablet doesn't upset stomach

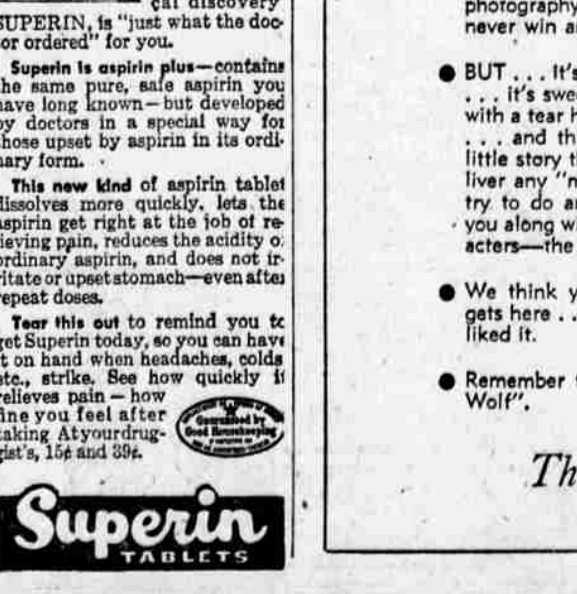

When you need quick relief from pain, do you hesitate to take aspirin because it leaves you with an upset stomach? If so, this new medical discovery

SUPERIN, is "just what the doctor ordered" for you.

Superin is aspirin plus—contains the same pure, safe aspirin you have long known—but developed by doctors in a special way for those upset by aspirin in its ordinary form.

This new kind of aspirin tablet dissolves more quickly, lets the aspirin get right at the job of relieving pain, reduces the acidity of ordinary aspirin, and does not irritate or upset stomach—even after repeat doses.

Test this out to remind you to get Superin today, so you can have it on hand when headaches, colds etc., strike. See how quickly it relieves pain—how fine you feel after taking At your drug-gist's, 15¢ and 39¢.

An Open Letter to Showgoers...

- The other day we looked at a little picture you probably haven't heard much about and, ordinarily, probably wouldn't.
- It's called "My Pal, Wolf."
- About a little girl and her love for a dog—a handsome German Shepherd.
- It's not a BIG show... it hasn't a "big name" cast... no trick photography... it'll probably never win any Academy Awards.
- BUT... It's a honey of a picture... it's sweet... and clean... with a tear here... a smile there... and through it all a simple little story that doesn't try to deliver any "message"... doesn't try to do anything except carry you along with its two main characters—the girl and the dog.
- We think you'll like it when it gets here... just as much as we liked it.
- Remember the title—"My Pal, Wolf".
