An indoor circus of mystery will be presented in the Senior high school auditorium at 8 p. m. Tuesday when the Great Virgil, internationally known magician and illusionist, makes one of his few appearances in Oregon.

The Great Virgil's appearance is being sponsored by the high school for the benefit of the newly created visual education department and proceeds will be used in connection with new arc projection equipment, according to Mrs. Jo Anne Smith, department adviser, who is in charge of the program.

The magician, who is assisted by Julie, known as the "Sweetheart of Magic," recently completed a 28-week run at the Fox theater in San Francisco and will present the same complete show here.

Several sets of scenery, dozens of gorgeous costumes, special music and lighting effects, birds and animals and hundreds of pounds of magical equipment will be used in the presentation of this mystery spectacle.

Scenes will include "Death on a Guillotine," "The Garden of Allah," "Dissolving of Two People," "The Oracle of Tibet," "Human Television," "The Gambler's Nightmare," "Chinatown After Dark," and many other equally fascinating acts.

Tickets will be on sale at the box office located in the Chamber of Commerce from 10 a. m. Saturday through Tuesday. All seats will be reserved.

## BUTTER SUPPLY TO GROW SCARCE

Washington, Jan. 11—(U.P.)—Butter, a vanishing item on the American diet, will become even scarcer during the next few months, a war food administration order indicated today.

The government will move into the market two months earlier than it did last year to get supplies urgently needed for shipment overseas for military forces, WFA reported.

It ordered that 20 per cent of all creamery butter produced during February and 25 per cent of all produced in March be reserved for the armed forces. The set-aside last year did not go into effect until April, and then it amounted to only 10 per cent.

"With war requirements continuing to increase there is little hope of improvement in the butter situation for civilian consumption," officials said.

### How To Prepare Bundles

Use Twine—Not Wire

**Newspapers:** Fold them flat (the way the paper boy sells them) and tie them in bundles about 8 inches high.

**Corrugated and Card-board Boxes and Cartons:** Flatten them out in bundles about 8 inches high.

**Magazines and Books:** Tie them in bundles about 8 inches high.

**Wastebasket Paper (Wrappers, Envelopes, Etc.):** Flatten and pack down in a box or bundle, so that it can be carried.

### HOW WASTE PAPER FIGHTS

—It takes 81 tons of supplies per month just to keep one man overseas.

—All must be wrapped and packaged in PAPER products. Here are just a few of thousands of war uses:

- 650 cartons for Army Field Ration K or 115 boxes, each containing ten 20 mm. shells or
- 50 75 mm. shell containers.

—Other products made from paper include Air Force emergency packs, vital bomb rings and fins, camouflage paper, fuse parts, gas mask canisters, helmet accessories, airplane wing-tips, blood plasma containers, and instrument panels.

—Paper is substituting for critical materials. Savings of 215,000,000 pounds of critical metals; 36,000 pounds of pliofilm; 750,000 pounds of glass; 12,000 pounds of rubber; 220,000 pounds of cellophane; and 8,000,000 board feet of lumber, were reported in one year by the industry.

Send your waste paper into the fight!
