

NAVY PILOT GETS 4 ENEMY PLANES AND JAP CAPTORS

Washington, Jan. 13.—(U.P.)—A navy pilot accomplished something unique when he not only shot down four enemy planes in one flight but also picked off two more Japs with his revolver while bobbing around the Pacific in a life-jacket, the navy disclosed tonight.

The industrious Hellcat pilot was Ens. Clarence A. Borley, Yakima, Wash., who accounted for his four planes in a sweep over Formosa recently.

Anti-aircraft fire forced him down in the water, and two Japanese headed for him in a small sailing dinghy from the nearby enemy shore. Borley waited until they were within 50 yards, then opened fire with a .38 calibre revolver. It was not until five days later that an American submarine rescued him — and then he had to convince his rescuers that he wasn't a Jap.

SEN. BARKLEY TO ESCAPE MEASLES

Richmond, Va., Jan. 13.—(U.P.)—Sen. Alben W. Barkley, D., Ky., can take it easy—he's not likely to catch film actress Marie McDonald's measles.

Barkley and Miss McDonald were guests of the Touchdown Club in Washington recently and posed together for photographers. Then she came here Thursday and went to bed with what her doctor called "one of the worst cases of measles I've looked at in years."

But Steve Lambert, studio representative accompanying Miss McDonald, said he had been assured that "it's not the old black contagious kind of measles." Lambert was released from quarantine yesterday.

SEABEES MIRACLE LANDS SUPPLIES IN GUAM ATTACK

Camp Paris, Cal., Jan. 13.—(U.P.)—The Seabees practically accomplished the impossible to land supplies for the American forces invading Guam, A. L. Maunch, Los Angeles, one of the first Seabees to return from the action, said today.

Explaining that the Japs had counted on an off-shore coral reef to stop our supply ships, he said the Seabees managed to set up a pair of cranes on the reef, and working in water that was sometimes waist deep, swung trucks, bulldozers, ammunition, food and fuel from the cargo ships to amphibious tractors inside the reef.

"The tractors then floundered through 400 yards of shallow water to shore," said the 50-year-old electrician's mate, "and for the first couple of days the Japs kept throwing mortar shells at our cranes. I can still hear them popping around me."

SEEK YOUTHS FOR HOLD-UP, MURDER

San Francisco, Jan. 13.—(U.P.)—Three youths between 17-19 years of age held up a small grocery store in the Ingleside residential district here tonight, shooting and killing the proprietor and escaping in a stolen convertible sedan which they later abandoned several miles away, police reported.

The grocer, Dave Petrovich, 45, was shot in the stomach when he resisted the trio and died in the ambulance on the way to an emergency hospital.

Police said the youths were well-dressed and may be connected with the recent string of convertible thefts from Union Square garage.

STETTINIUS WILL HEAD LATIN MEET

Washington, Jan. 13.—(U.P.)—Secretary of State Edward R. Stettinius, Jr., will head the U. S. delegation to next month's conference of American republics in Mexico City, and it was believed here tonight that the Argentine government—now excluded from the parley—may be invited later to present its view of circumstances which have led to its diplomatic isolation.

Stettinius' decision to head this country's delegates, was officially announced by the state department today.

LABOR WARNED BY SECY. PERKINS TO WATCH ITS STEP

Washington, Jan. 13.—(U.P.)—Secretary of Labor Perkins tonight warned labor unions that failure to assume their full "public responsibilities" will result in weakening of laws which she said had given American labor unprecedented protection.

In what may be her last annual report, Miss Perkins also: 1—Called on labor to devote the coming years to "development of a program of public service."

2—Called for postwar consolidation within the labor department of all government agencies having to do with labor and labor-management relations.

3—Back-handedly chided the war labor board's finding that wages have kept pace with living costs, commenting that even "the most competent representatives of government . . . when charged with an official decision on wages can hardly be as well informed about any practical situation as are the workers and employers directly involved."

4—Recommended anew that the social security program be expanded and that provision be made for more and better housing and for increased adult and occupational training.

Miss Perkins and Secretary of Interior Harold L. Ickes are the only two members of President Roosevelt's original cabinet who still hold their positions. Many observers, however, expect her resignation to be announced shortly.

WIDOW HEARS OF GENERAL'S DEATH

Washington, Jan. 13.—(U.P.)—Brig. Gen. Allen C. McBride, 58, one of the heroes of Bataan, died last May 9 in a Japanese prison camp on Formosa, his widow, Mrs. Avis McBride, said tonight.

Word of McBride's death reached here only recently. Mrs. McBride told the United Press, in a letter from another interned officer, Maj. Gen. George Parker. There has been no confirmation from the International Red Cross.

WAR WORKER BILKED

Seattle, Jan. 13.—(U.P.)—Two Montana oil land salesmen were freed on \$3,000 bond each tonight after pleading guilty to grand larceny, after they were accused of swindling an elderly shipyard worker out of \$3,400 in cash and war bonds accumulated while working in a Seattle shipyard.

AIR CHIEF SAYS WORST OF RAIDS ON JAPS TO COME

Boston, Jan. 13.—(U.P.)—Gen. H. H. Arnold, commander of the U. S. army air forces, said tonight that past Superfortress raids on Japan were "merely the prologue" of the bombing in store for that country and promised that our air strength will make the enemy "wish the airplane had never been invented."

Addressing the annual dinner of the Washington chapter of the National Sojourners, Arnold said he anticipated a long, hard and bitter struggle against Japan.

"Remember this," he said, "Japan is not a group of moderately small islands covered with inflammable paper buildings — as some people seem to think. Her inner empire — the islands plus Korea and Manchuria

—covers an area of more than 730,000 square miles. This area comprises a highly developed, almost self-sufficient industrial and agricultural unit three times the size of Germany. And this industrial unit has now had a chance to disperse.

"Dispersed or concentrated, Japanese industry will not survive the bombardment in store for it. We will hit their factories, their oil fields, and their cities, first with our B-29s then, as our bases draw closer, with Fortresses and Liberators and even with our lighter aircraft."
