100 Hospitals Hit By Navy Bomb Blitz

Cleveland (U.P.) — During the 86-day robot bomb blitz following the invasion of Normandy, 100 hospitals in London and South England were destroyed, Dr. Harold O. Hofmeyer, liaison adviser in medicine to the British Commonwealth scientific office, revealed here recently.

Dr. Hofmeyer, speaking to the third war conference of the American Hospital Assn., also disclosed Britain's postwar health plan, which includes three drastic changes:

All medical schools not connected with a university will be eliminated; women students will be admitted to medical schools, and medical education will be placed within the reach of those who are fit for it, regardless of the individual's ability to pay.

CHURCH REFUSED PERMIT TO BUILD IN HEIGHTS AREA

A petition filed by the Friends church requesting permission to erect a church at lot 5, block 2, Siskiyou Heights, failed to pass at a meeting of the Medford city planning commission last night, Ralph J. Woodford, city recorder announced today.

"That area has always been a zone 1-A, or a single family residence zone," Woodford pointed out, "and under local law owners of more than 50 per cent of the property within a 300 foot radius must approve a change to non-residence or 2 zoning."

The property in question was purchased several years ago with the idea of building a Friends church, spokesmen pointed out.

New officers elected to the commission last night were: J. F. Fleigle, president; Dwight Houghton, vice president and R. J. Woodford, secretary.
