Latin American Program Given At Club Meeting

Mrs. H. G. Wortman and Mrs. Bert B. Lowry presented a program on Latin America to the members of the Wednesday Study club at their meeting January 17th. This is one of a series planned to give a wider knowledge and better understanding of various countries with which the United States has been brought in closer contact by the conditions of war.

Mrs. Wortman's paper stressed the need of western hemispherical solidarity for this country as well as our neighbors to the north and south. The monetary help given by the United States to Latin American Republics has brought to us a much needed source of supplies, both for war and civilian use, Mrs. Wortman stated.

Mrs. Lowry's talk highlighted some of the political and economic differences between our countries, and told of the inception of the Monroe Doctrine—a definite declaration of foreign policy that has stood the test of time. After the Latin Americas gained their freedom from foreign rule, only the enforcement of that policy by the United States government protected the South Americas from colonization by European powers. Mrs. Lowry stated. Our policy of non-intervention in the internal affairs of other nations, especially in Mexico, has done much to bring about more amicable relations, the speaker said. Mrs. Lowry's talk was based on the book "The Americas and Tomorrow" by Edna Prewitt.

Mrs. J. W. Brown, whose husband, the son of Mr. and Mrs. H. L. Brown, is with the allied forces somewhere in France, was a guest for the afternoon, and Mrs. E. A. Moore was welcomed on her return as a member of the club.
