Wall Street

New York, Jan. 25.—(U.P.)—The stock market advanced in all sections today on moderately reduced volume, aided by restoration of equilibrium in American Telephone which lost 2¼ points in the previous session.

Telephone regained more than half its loss of yesterday. The drop was ascribed to selling for an estate but the weakness in this favorite had pulled the market down, principally the industrial average in which it is included. The issue dropped on the Chicago stock exchange today to get into line with the New York price.

Today's improvement in the share list was accompanied by a better market for bonds. Rails stood out for strength in both markets.
