A Crust of Bread

THIS VERY YOUNG GREEK, like many of his elders, is making the best of a difficult situation. His name happens to be Charafambos Makris. But he is only one of thousands who have survived three and one-half years of war and German occupation. Head bandaged, he is seated upon a beam that once formed part of his home, now in rubble. He has a morsel of bread, but his distended stomach indicates malnutrition. He has an expression in his eyes old beyond his years. He has the sunshine, but not much else.

Mate Fay Holley and Lt. Roy D. Holley, navy, met for the first time in three years at a South Pacific port. Orval Oliver, Sic, wrote that he was standing in front of a theater near his overseas base when he looked up to see his brother, Herman, TME1c, walking down the street.

James W. Glenn, cannoneer with the 91st Division in Italy, has been promoted to private first class and George Fredenburg has been promoted to staff sergeant at a south Pacific base. Cpl. Clayton Cannon is now serving on Guadalcanal and Cpl. Nelson Cannon is in the Philippine Islands.

Card, metalsmith first class, for the first time in four years. He has been on Atlantic sea duty and will next be on duty at New Orleans. His brother, Roger E. Card, Seabee, is now at a storage ammunition point on the Columbia. Home after 34 months in the

southwest Pacific is Sgt. Roy L. Huson who has been serving with the famous 41st Infantry Division in New Guinea and Australia. His twin brother, Cpl. Ray Huson, home a year ago, is now in the Philippine Islands.

Others home are Pfc. Winston Frohreich after 18 months on the Aleutian Islands; Lt. (jg) George F. Tucker, U. S. Maritime Service after duty in India, and the Bayliss brothers, First Lt. Warren C. of the marine corps and James W. AMM1c, the latter home after 22 months in the southwest Pacific.

Richard E. Sturjill is training for maritime service at Catalina Island and Volney M. Brock is taking marine "boot" camp training at San Diego.

To help feel your best— IT'S VITALLY IMPORTANT TO KEEP PROPER IRON LEVEL IN THE BLOOD

One-ounce dish of KELLOGG'S All-Bran gives over 1/3rd your daily minimum iron needs

EVERYONE, young or old, needs iron constantly to help keep up the "iron level" in the blood—to help keep vitality up to par.

The best place to get iron is in foods. But—there are only a few foods that have a significant amount of iron. Thus, your diet can be lacking in iron without your knowing it—and your "iron level" may decline.

Fortunately, there is one everyday breakfast cereal that is a rich, inexpensive source of readily assimilable iron. It's KELLOGG'S ALL-BRAN, which actually gives you more available iron than spinach. And, in addition to iron richness, this nut-brown, crunchy breakfast cereal is an important natural source of calcium, phosphorus, and vitamins B₁, B₂ and niacin. That's because ALL-BRAN, produced by Kellogg's in Battle Creek, is made from the vital outer layers of finest wheat.

DONOR OF 7 PINTS OF BLOOD

MORE BLOOD DONATIONS NEEDED NOW

Miss Edith Jane Meyer, 835 Trinity Ave., Bronx, N. Y., gave her first pint of blood on her 21st birthday, two years ago. To date, she has donated 7 pints. Other patriots are urged to donate blood for urgently needed plasma. Fluid part of the blood is restored in a few hours. Maintaining the body's proper "iron level" helps to rebuild the red corpuscles.

KELLOGG'S All-Bran is made from the VITAL OUTER LAYERS of finest wheat

You know that the skin of a potato and the peel of an apple are richest in vitamins and minerals. In the vital outer layers of wheat, too, Nature stores some of the grain's most important nutrients. ALL-BRAN is made of these vital outer layers and is more abundant in many food elements than whole wheat itself.

America's Great Regulating Cereal

And, in addition to being a storehouse of iron and other important elements, famous KELLOGG'S ALL-BRAN is Nature's great REGULATING CEREAL. Millions eat it regularly. It's America's most widely used regulating FOOD. Just a one-ounce serving eaten daily is usually adequate for satisfactory laxation. ALL-BRAN does not interfere with normal digestion. It is triple-milled for golden softness.

Be sure your family gets a good start on its requirements of iron and other important food elements! Serve KELLOGG'S ALL-BRAN regularly.

Eat KELLOGG'S ALL-BRAN as a cereal, in muffins, or on other cereals.
