

Bydgoszcz Police Chief Is Executed For Disobedience

London, Feb. 7—(U.P.)—The Berlin radio reported tonight that the police chief of Bydgoszcz, Poland, had been executed and several other officials disciplined for being "devoid of

honor and neglecting their duty" in connection with the Russian offensive. Gestapo Chief Heinrich Himmler "has handed over to a court martial a number of officials who, devoid of honor, neglected their duty and proved themselves unworthy of these days of trial," a Nazi broadcast said.

The executed leader of the Bydgoszcz police was identified as SS Standartenfuhrer—a rank corresponding to lieutenant colonel in the army—Von Salls. He was accused of cowardice and neglect of duty, sentenced to death by a court martial, and "the sentence has been carried out by shooting," Berlin said. On similar charges the former administrative chief of Bydgoszcz named Kuehn and the former mayor of the city named Ernest were ousted from office and thrown into a disciplinary battalion.

USED FAT QUOTA 230,000,000 pounds of used kitchen fat is America's household quota for 1944. Skim every soup. Scrap every broiler and pan. Every drop is vitally needed to make munitions, medicines and essential civilian products.

BURNING WOOL, 3,200,200 pounds of it, simmers as firemen tramp around amidst soggy materials and icicles. Flames rose to 50 feet in Kensington, Pa., wool factory as cold northwest wind made control difficult feat.

ACCIDENT RATE IS FORECAST BY SAFETY COUNCIL

Average American Has One Chance In 14 of Being Hurt In Accident

By Albert P. Mayer
United Press Correspondent
Chicago, Feb. 7—(U.P.)—The National City Safety Council took a look into the future today and found that the average American has one chance in 14 of being injured in an accident this year.

And that doesn't count the scratch on Junior's leg or the thumb father hit with the tack hammer. An injury in the eyes of the Safety Council is one which causes temporary disability.

The council's statisticians forecast the accident rate for 1945 in the hope the figures would make people stop, look, and listen—and be more careful.

Farm Safest
The safest place to live, the council concluded, is a farm. The chance of a farm resident having an accident injury in 1945 is one in 18, the statistics showed.

According to the council's forecast, every American has a 1-in-29 chance of being injured in his home during the year. The chance of being hurt on the job is exactly the same as the home injury rate.

The Safety Council's survey indicated that the safest industry is communications where the chance of being injured in an accident is only one in 150. The next safest, the council found, is the explosives industry where the chances for injury are one in a hundred.

The low rate of injury in such seemingly dangerous industries can be traced to the constant guard against accidents in those occupations, the council said.

The investigation disclosed that the miner holds the most dangerous industrial job. The council estimated that the miner has a 1-in-8 chance of being hurt in 1945. A farm worker, on the other hand, has only one chance in 36 of being hurt, according to the Safety Council estimates.

Break For Pedestrians
It will be a fairly safe year for pedestrians, whose chances of being involved in an automobile accident are one in 570, the council said.

And the statisticians have a word of warning for the drinking driver. His chances of being in an accident are 55 times greater than those of the sober motorist.

YES, SHE HAS SOME—Six-year-old Lucille "Banana Girl" for the last fruit cause she must eat from six to ten pounds of the fruit daily. Doctors order, for Lucille is victim of rare coeliac disease, and can't digest certain foods to keep weight up.

Lincoln P.T.A.
Mrs. Bertha Haskins will lead the annual Lincoln program to be given for the Lincoln Parent-Teacher association Friday of this week at the Lincoln school at 2:30 p. m.

Mrs. H. C. Obye, Grants Pass, regional state vice-president for this district, will be a special guest and will lead group singing. Pupils of Mrs. Chastain's room will present a program.

30 PARTS IN LAMPHOLDER
A pull-chain lampholder is a small, compact device—but it has 30 parts and assembling them takes 82 separate operations.

Army Intelligence Wants Pictures Of Far East Countries

Persons in southern Oregon who traveled or lived in enemy or enemy occupied countries in the Far East since 1930 are asked by army intelligence staff members to contact Army Intelligence Branch, Northern Security District, P. O. Box 951, Portland, in the near future. A representative of army intelligence in Medford yesterday stated that it is believed certain vital information about these countries may be obtained from such persons.

Anyone having lived or traveled in such countries as China, Japan, French Indo China, the Malay states, Thailand or other countries of the Far East should write to the intelligence branch stating where they were, when, for how long and whether or not the person has any pictures taken in those countries.

... made with CINCH CORN BREAD MIX. Each package contains ALL necessary ingredients. Just add water, mix and bake. For variety, to package contents add 1/2 cup of chopped cooked fruit and chopped nuts.

Behind their fortifications, the Japs confidently waited for MacArthur to attempt a landing along the eastern coast of Lingayen Gulf. Instead the Yanks, in "Water Buffalos" (LVT amphibious tanks), swarmed ashore on the southern shore of the Gulf, where the Japs thought no landing was possible because of the high, pounding surf and innumerable pools of the Agno River delta. "Water Buffalos" are products of Food Machinery Corporation.

FMC ALSO MAKES THESE AND OTHER PRODUCTS:
MILK FOOD FIVE PORTERS 20-ounce water at high pressure to extinguish fires almost instantly. Used by many fire departments.
FOOD MACHINERY CORPORATION'S BEAN-CUTLER BOWL-SHOW makes a full line of agricultural & industrial wringing equipment.
AUTOMOTIVE SERVICE STATIONS prefer Best wheel aligners, wheel balancers, headlight testers, & other equipment.
