

4-H CLUB HEADS OF FIVE COUNTIES END CONFERENCE

About 75 4-H club leaders of Lake, Klamath, Jackson, Josephine and Douglas counties attended a regional conference held at the courthouse here Monday and Tuesday. Sessions included talks and discussion on various phases of home economics and agricultural projects.

Speakers included K. W. Ingwolson, Washington, D. C., western representative of the extension service; H. C. Seymour, Corvallis, state 4-H club leader; Mrs. E. F. Wright, Portland, president of the State Leaders' association; Helen Cowgill, Maryolive Snarr and Ruth E. Crawford, extension specialists from Corvallis.

Monday evening about 100 persons attended a banquet at which Mitchell Tillotson, Klamath Falls, president of the Oregon Bankers' association, delivered the main address. Reports of the National 4-H Club Congress were also given at the banquet.

In past years leaders have assembled at Corvallis for the annual conference but due to wartime conditions, regional conferences are now held.

Wall Street
New York, Feb. 7—(UP)—Stocks advanced today for the seventh consecutive session with the railroad issues leading the way. Trading, though under yesterday's volume, was moderately active.

Early in the session the market wavered when traders cautiously took profits in a sizable group of issues. This selling failed to bring any wide decline and soon confidence was restored and the leading groups moved ahead with the utility average reaching a new high since August 25, 1937.

JENSEN'S ROBBED CASH AND GOODS

An unidentified burglar was forced to leave his loot of cigars, peanuts and sundries behind—in a burglary attempt Monday night at the B & E, 220 West Main street, police reported today.

Officers investigating evidence at the establishment yesterday reported they believed the burglar had hid himself in the building until time to lock up. After filling a carton with cigars and other small articles he was apparently stumped on how to make a get-away through two locked entrances, police said. Authorities believe he must have crawled out a transom over the front door of the establishment, but found the extra burden of his loot too large for the opening.

Police reported marks were found on the inside front and back entrances indicating someone had tried to use a glass cutter to pry their way out. \$200 in cash was also reported stolen.

Police Seek Owner Of 18 Lost Suits
Houston, Tex.—(U.P.)—There is a man in Houston who has so many suits that he doesn't even miss them when 18 disappear.

At least, that's what city police are led to believe. A taxi driver "just found" the 18 suits, and no one seems to have an idea to whom they belong. There are no labels on them nor reports from any Houston citizen as to the loss of said suits.

So if he doesn't need them any more than that, they should worry!

CANCER RESEARCH MAY END MENACE

Chicago, Feb. 7—(U.P.)—Cancer is on its way out as a fatal disease, according to Dr. Clarence C. Little, executive director of the American Cancer society.

Little told ACS state commanders last night that cancer will be reduced by research to a minor cause of death within the near future.

"There is no doubt we are moving in the direction of finding the origin and nature of the disease," Little said. "We are not seeking a 'cure' for cancer but methods of preventing and controlling it."

In the last decade more progress has been made in cancer research than in the previous 200 years, he told the group. This advance, he said, justified the society's \$5,000,000 campaign, scheduled to open April 1 to help promote research in the field.
