HENRY SERVICES 1:30 P. M. FRIDAY

Services for J. D. Henry, who passed away in Klamath Falls Tuesday, will be held in the Conger-Morris Chapel at 1:30 p. m., Friday with the Reverend D. E. Miller officiating. Interment will be in IOOF cemetery.

He was born in Bowling Green, Ohio, June 21, 1872, and was united in marriage to Mary Louise Fridegar in 1897 at Columbus, Ohio. She passed away in 1939. He came to Southern Oregon in 1902 and for twenty years lived on a farm near Brownsboro. Since 1938, when he left the farm, he had made his home with his daughter, Mrs. Frances Nelson, Central Point. He leaves two other daughters, Mrs. Margaret Vroman, Klamath Falls, and Mrs. Beatrice Welsh, Anaheim, Calif.; a son, Albert Henry, Sacramento; four grandchildren, Roland Thompson, Portland, Carl Stockford, Mrs. Margaret Day and Allen Henry, Medford; five great-grandchildren; a brother, Edwin Henry, Ohio; a half-sister, Mrs. Clara McNelley, Ohio; and a brother-in-law, R. I. Fridegar, Ashland.

DEGAULLE WOULD SOFTEN F. R. SNUB

Paris, Feb. 21 — (U.P.) — President Gen. Charles DeGaulle's office shortly before last midnight officially confirmed that he had declined an invitation to meet President Roosevelt in Algiers.

The communique was couched in conciliatory diplomatic language clearly intended to dispel the impression of a personal snub on the part of De Gaulle and reiterated France's strong hope that Mr. Roosevelt later would visit Paris. The communique said "much business" required De Gaulle's presence in Paris.

The communique said France still was "ignorant" of the "manifold objectives" of the big three conference at Yalta, but added that she was exchanging views with the allies on results of the conference.

Closing time for Sunday Too Late to Classify 5:30 Saturday afternoon—Please remember.

Nephew Of Local Woman Safe, Says Short Wave Radio

A short wave radio message from Japan informed relatives of Major James C. Rinaman, a Japanese prisoner-of-war, that he has been taken to the Japanese mainland and is now interned at the Tukuoka Camp hospital. The major, a doctor, is a nephew of Mrs. W. S. Gilmore, 4 Newtown street.

The broadcast was heard by Mrs. Frank Biderell of Palo Alto, Calif., who relayed it to the major's mother in Pennsylvania. The major in addition to giving the news of his transfer, stated that Major Brambard was with him, that six letters and some packages had arrived for him and added, "have great patience."

Major Rinaman has been a prisoner since the fall of Corregidor and according to Mrs. Gilmore for a time was interned in the same camp with a brother of Dr. A. E. Merkel, Jackson county health officer, also a prisoner.

DEFENSE SYSTEM SOUGHT ON COAST

Washington, Feb. 21—(U.P.)—Congressmen from San Francisco, Los Angeles and San Diego, focal points of Pacific coast war activities, today appealed to the federal works agency to construct a system of "super highways and bridges" for the strategic protection of those defense areas.

Reps. Richard Welch, R., Franck Havenner, D., Leroy Johnson, R., George McDonough, R., and Ed V. Izac D., urged that a generous portion of the $68,000,000 to be allocated from FWA funds for highway construction in California be used in their areas.

"The entire San Francisco area where the government has more activities per square mile than in any other part of the country is virtually hemmed in by hills," Welch said.

"The tunnel route and Niles Canyon are the only two routes leading out."

ROTARY INTERNATIONAL MAY SHIFT QUARTERS

Chicago, Feb. 21 — (U.P.) — Officers of Rotary International are considering moving headquarters of the organization from its birthplace—Chicago—to Denver, it was learned today.

International President Richard H. Wells, Pocatello, Ida., said a committee appointed by the board of directors to study possible new locations had recommended Denver. Wells, here on return from a Latin-American tour, said Rotary plans to build a $600,000 building of its own in its new location.

SWINGSHIFTERS PLAN DINNER-TIME DANCES

Hollywood, Feb. 21—(U.P.)—Harry Schooler, who taught his fellow swingshifters to play while others slept, complained today that the government's midnight curfew had undone all his work, but said he would meet it by opening his dances at dinner time.

Schooler, who worked in a war plant for $60 a week and made $1000 a week "on the side" by sponsoring swingshift dances for his fellow-workers, guessed there was no way to save the after-hours dances.

In Hungary, a man must be 26 before he can vote, a woman 30.

American Invasion Armada Hits Iwo Jima

(Acme Radio-Telephoto)

American warships (arrows) stand off Iwo Jima as lines of speeding barges speed towards shores of Jap-held outpost, only 750 miles south of Tokyo, as Marines of Fourth and Fifth Divisions began their invasion. Land mass in background is Suribachi Yama, extinct volcano at narrow southwestern end of the five-mile-long island. This picture was made from a Navy plane, transmitted by radiotelephoto to San Francisco from Guam.

Baby Born Three Months Late is Something New To Medical Science

Los Angeles, Feb. 21 — (U.P.) —Dr. Daniel Beltz today said Mrs. Buelah Hunter, 25, had given birth to a baby girl a year and 10 days after it was conceived. He offered his records in proof.

Never in medical history has a birth been so tardy.

The child, weighing six pounds 15 ounces was born at Methodist Hospital last night three months after she was normally due, according to Dr. Beltz' calculations.

270 Days Normal

Dr. Beltz said his records showed the gestation period was 375 days, as compared to the normal 270 days. Obstetric records, he said, report the longest pregnancy was 359 days, and there are records of many over 300 days.

"The weight of the baby under these circumstances should be about 12 to 14 pounds," Dr. Beltz said. "The fact that Mrs. Hunter's baby weighs only about seven pounds has caused some of the doctors at the hospital here to have a laugh at my expense. But I show them my records.

"I can't help laughing at myself that such a thing should happen to me," Dr. Beltz added. "No rules hold good in this business. Of course, these things have to be looked at with skepticism. But there are my records."

Tests Cited

Dr. Beltz, a general practitioner, said that on March 23, he examined Mrs. Hunter, wife of Sydney Hunter, aircraft worker, and biological tests showed positively at that time that she was to become a mother.

The tests indicated, Dr. Beltz said, that the child would be born in November. These tests normally are 98 per cent accurate, he said.

Local obstetricians agreed they hadn't found anything like that in medical records.

FARRAGUT BASE TO BE CHANGED

Washington, Feb. 21—(U.P.)—Farragut naval training station in northern Idaho will be converted to a receiving ship station maintaining only part of its present training facilities, the navy department today advised Rep. Compton White (D., Idaho).

White said funds previously applied to training will be used to conduct the receiving station. It will include a bureau of medicine and surgery as well as yards and docks maintenance.

"The navy anticipates a heavy influx to the receiving station with the end of the war in Europe," White said. He was advised of the change by Vice Admiral Randall Jacobs, chief of the bureau of navy personnel.

WEALTH OF THE WEST

*SPEED THE VICTORY—BUY WAR BONDS

Light Metals Nature, ever generous to the West, has enriched this region with the world's largest deposits of magnesite and with clays rich in alumina. Combined with these resources are the nation's greatest hydro-electric power plants — among them world-famous Grand Coulee and Bonneville. As a result, the aluminum capacity of western mills today is 315,000 tons annually, double the United States capacity prior to 1940. Additional light-metals production centers and secondary plants for rolling, forging, and casting will logically develop which means that the West in the post-war era will continue, as in the war period, to be one of the great aircraft producing regions of the world, as well as manufacturing a variety of other light-metal products. Prodigal is the Wealth of the West, and boundless are its opportunities.
