Wall Street

New York, Feb. 21—(UP)—Stocks had their widest decline of the year today on what Wall Street interpreted as a federal reserve drive to eliminate all speculation from the markets. Transactions, though slightly under yesterday, exceeded the million share mark for the 18th consecutive full session. Principal reason given for the decline was the recommendation of Marriner S. Eccles, chairman of the Federal Reserve Board, that a wartime excess profits tax be applied to speculative gains on stocks and real estate. However, technical factors also played a part since the market had risen for eight straight sessions to new highs for more than seven years. Preliminary closing Dow Jones stock averages: Industrial 159.66, up 0.09; Railroad 51.95, off 0.12; Utility 28.28, off 0.16; 65 stocks 59.80, off 0.05.

LOOSE LOG HURTS DRIVER OF TRUCK

Weyburn Kenyon, logging truck driver employed by Skeeters logging operations, was injured yesterday when a truck he was driving was struck by a log from another truck.

According to a report by Mrs. Charles L. Skeeters, Talent, a loaded truck operated by Jantzer Lumber company was coming toward Medford on the Crater Lake highway near the Copco plant, about 46 miles north-east of here. As the Jantzer truck met the empty truck driven by Kenyon, a loose log which was protruding from the truck struck the Kenyon truck as it passed. A broken binder chain caused the log to protrude. Kenyon suffered a severe gash on the head which will confine him to his home for several days and the truck was badly damaged, Mrs. Skeeters said.
