

# CHARLES E. OGLE IS SECRETARY OF KOG ASSOCIATION

Salem — Naming Charles E. Ogle, long-time Klamath county forest fire protection leader, as executive secretary of Keep Oregon Green, and warning Oregon residents they face the most critical forest fire season since the start of the war, KOG executive committee members this week

Charles E. Ogle

made plans for the most intensive fire prevention program in the five years of the organization.

"With demands of the military services requiring every able-bodied man under draft age, difficulty in securing adequate equipment, and threat of enemy incendiary devices challenging the fire fighting organizations of the west coast, it is more necessary than ever to reduce the man-caused fires to a minimum," said Edmund Hayes, of Keep Oregon Green.

Chairman Hayes, speaking for Governor Snell and the executive committee, said that an early start would be made this year in perfecting the state-wide Keep Green organization, and that county chairmen and workers would be named by Governor Snell shortly.

## Carpenter Work For Britain Done By Yanks, Claim

Washington, March 8—(U.P.)—Rep. Robert Sikes, D., Fla., charged today that 3,400 American soldiers were detailed to a lend-lease housebuilding program in Great Britain last December.

Asserting that this country never intended for "its fighting men to be loaned to Britain for house-building," Sikes said in a speech prepared for house delivery that lend-lease tended to become "land-waste."

Sikes returned recently from a secret military mission in Europe. He said he favored lend-lease as a war measure but wanted "an even break for the

American fighting men and for the American public."

"We furnish most of the supplies and three-fourths of the men on the Western Front," he said, "and in addition we are having presented to us a constant stream of proposals by which the United States would pay the bills and insure the prosperity of the post-war world."

He said soldiers protested against being assigned to the housing work.
