MEASURES WOULD AID CALIFORNIA FORESTRY

Sacramento, March 13—(U.P.) Two bills designed to keep California in the lumber producing business were given "do pass" recommendations today by the senate natural resources committee.

Written by Sen. George Biggar, R., Covelo, the bills include reorganizing the state board of forestry and creating a new board of forest acquisition to buy cut-over lands which Biggar contends private owners "either cannot or will not" replant. No appropriation was mentioned.

France Makes Huge Lend-Lease Payment

Washington, March 13—(U.P.) France today paid the United States \$40,000,000 on its account for lend-lease materials shipped to north and west French Africa.

Foreign Economic Administrator Leo T. Crowley said the payment brought to \$153,668,907 the amount paid by France on its account for aid to its African colonies. Only \$31,000,000 remains unpaid, he said, and negotiations are under way for a final settlement which he expected would be reached in a few days.

RICHFIELD

FIRST to MAKE

JET PROPULSION FUEL

RICHFIELD fuels have always been leaders... on land and aloft. The fuel that powers the Jet Propulsion plane is still another example of Richfield leadership in the production of aviation fuels. Richfield was FIRST to produce a fuel specifically designed for Jet Propulsion engines. Its production, in volume, is dramatic proof of the vision and versatility of the petroleum industry. Jet Propulsion fuel is one more western contribution to the job of maintaining American mastery of the skies.
