## Birth Day Dinner Given Wednesday For Legion Post

The 26th birthday dinner of the American Legion, held at the armory Wednesday evening, proved to be one of the most enjoyable events held by the Legion and Auxiliary this year, members report. About 125 members of the two groups and

their guests were served dinner prepared by an auxiliary committee headed by Mrs. Ray Wright.

Mrs. Carol Parker, auxiliary president, presented Commander Harry Young and Legion members with a decorated birthday cake which was served.

During dinner entertainment was furnished by a trio of Mexicans who played and sang songs of their native land. Herb Alford with Bub Crosby at the piano, led the dinner guests in a song-fest. Such songs as "Over There," "Smiles" and "Parlez Vous" proving still to be favorites with the Legionnaires.

The pleasant evening concluded with dancing.

## DUMBARTON OAKS PLAN IMPERFECT, BUT GIVES HOPE

New York, March 17 — (U.P.)—The Dumbarton Oaks proposals for a world security organization are neither complete nor perfect but they represent at this time the greatest possible measure of agreement among the big powers, Undersecretary of State Joseph C. Grew said tonight.

Speaking to the annual meeting of the Society of Friendly Sons of St. Patrick on St. Patrick's Day, Grew emphasized the danger of expecting perfection in the world organization at the start.

"No plan is perfect," he said. "Every plan is capable of amendment and improvement, including our own constitution. Yet no responsible person has ever seriously suggested that we scrap our constitution and start anew, or that we rebuild the whole structure on different lines."

He outlined two other factors to be remembered in connection with the San Francisco conference next month:

1. The machinery of world organization itself will not solve all problems.
2. The San Francisco conference is not a peace conference and will not deal with specific territorial, reparations or similar problems.

"The one great purpose will, quite simply, be to draft the charter of the United Nations—that is, to establish machinery to maintain the future peace and security of the world, as outlined in the Dumbarton Oaks proposals," Grew said.

## CONCHIES' WORK TOO HAZARDOUS

Portland, Ore., March 16 — (U.P.)—Means of reducing the danger of hazardous work at the Conscientious Objectors Camp at Waldport, on the Oregon coast, were under discussion at the camp today following disclosure of the death of a former Chicagoan.

A News Release received here from the Waldport Camp No. 55 stated that George Moyland, 30, formerly an accountant at Chicago, suffered a crushed skull March 8 while engaged in felling dead trees in the Siuslaw National forest.

The News Release, which did

not quote any camp officials, said that the death provoked considerable discussion among the camp assignees as to the hazards of that type work. Few of the assignees have had experience qualifying them for dead tree felling, which experienced woodmen regard as particularly dangerous, according to the camp report.

## POLE CASUALTIES OVER 10 MILLION

London, March 17—(U.P.)—Poland has suffered an estimated 10,000,000 military and civilian casualties since the war began, or more than 28 per cent of her prewar population of 35,000,000. The Polish press bureau reported tonight.

The bureau said that the casualties, which included soldiers killed, wounded and taken prisoner and civilians deported, interned or "displaced," made Poland's losses greater, comparatively, than those of any other of the United Nations.

Military casualties were estimated at 1,045,000 and civilian casualties at approximately 9,000,000.
