FOOD CONSERVATION

Owing to the stress of war we now hear much about food conservation. All are anxious to do their part. Some do not see how they can conserve more and others are fearful lest they be unable to obtain sufficient. After all it is not the amount eaten that builds our bodies, but the amount properly digested. We may all help in food conservation not only without injury but to our benefit. This we may do by eating more slowly, more thoroughly masticating our food, dismissing business cares and worries and enjoying greater mental contentment while eating. By carrying out these suggestions better digestion and assimilation follows and less food is required. Of course much depends upon the normal functioning of the digestive system. If the digestive system functions abnormally, proper treatment will assist in overcoming this defect.

TRIBUTARIES OF LOWER ROGUE TO HAVE LOW FLOW

Small tributaries of the lower Rogue, such as Evans creek, Graves creek, and Jump-off Joe creek, may expect low summer flow about Aug. 1, the forecast watter committee report shows. The committee met here last Friday. Ditch closures on late water rights may be expected the latter part of August.

In the main Applegate district conditions indicate that regulation of water between rights will be advanced approximately two weeks over last year. This is due to a below normal snow and evidence that ground water supplies on the Applegate watershed are depleted below normal.

Shortage of water for late priority rights is expected about August 15, and by September stream flow is not likely to support rights later than those of 1900, the report further states.

Some shortage is expected in the Talent district of the Bear creek valley, with 1000 acre feet short of normal requirements in the storage resorvoirs. The report cautions there is apt to be a rather serious shortage if the summer proves warm and dry. If withdrawal of water can be delayed until June 15, water is likely to be available for irrigation until September 15.

PVT. VAN KEUREN KILLED IN ACTION

Mrs. J. F. Glenn, Route 4, Box 82AR, has been informed by the war department of the death of her son, Pvt. Richard Van Keuren, who was killed in action in Germany March 21. He was serving with an infantry unit of the Seventh Army.

Pvt. Van Keuren attended the Howard school here and Central Point high school. He was married four years ago. The soldier entered the army in December of 1943 and went overseas in February of this year.

Survivors are Mrs. Glenn, his wife and daughter, who reside at Coquille, Ore., three sisters and four brothers.

Money Order Sent To Son Returned Minus Inscriptions

A money order which O. O DeBerry, 522 Crater Lake ave., sent to his son, Cp. L. O De Berry, last August, is now back in the father's possession, minus all the inscriptions which were made in ink. Cpl. DeBerry wrote his father to explain that the money order had been soaking wet and that since the ink had become obliterated, he could not cash it.

Cpl. DeBerry, overseas a year, has served in New Guinea and New Britain and is now in the Philippine Islands. The corporal's father served in the first World War, having been with the 54th Pioneer Infantry division of the Third army.

New Analgesic Tablet
(Pain Relief)
now released to public
Thousands find it gives quicker, safe relief from headache—from pains of sinus, neuritis, neuralgia and arthritis

FOR MANY YEARS aspirin has been accepted by both the medical profession and the public as a safe, sure way to relieve pain.

But many people who had complete confidence in aspirin did not find it gave as *quick* relief from blinding, maddening pain as they hoped for. Hence in desperation they sometimes turned to other remedies less well proved.

To meet this situation a group of medical research men set out to see what could be done to speed up the analgesic or "pain-killing" action of aspirin—to make it bring their patients quicker relief, without heart or stomach upset.

Out of these researches came a really new kind of analgesic tablet, a combination of aspirin and calcium glutamate. In this new tablet, aspirin does its old, safe job of relieving pain. But through its combination with calcium glutamate, extensive tests by physicians showed it gave most people both *quicker relief* and *greater relief* from pain.

After this extensive testing and use by members of the medical profession as a prescription remedy, this new analgesic tablet has now been released for non-prescription sale by every druggist. It is called Superin (from super-aspirin). You can get its blessed, quick relief from pain by asking your druggist for a bottle today—30 tablets for 39¢. Ask for Superin—*Super-in.* Prepared by Carter Products, Inc., New York.

Superin . . . *Quick relief from pain—with safety*
