Bird Felled Alive**

Herrin, Ill. (U.P.)—When John Henson of Herrin, Ill., went duck hunting recently, he didn't expect to bag a live eagle with a wing-spread of six feet. He took a shot at the eagle which was hot on the trail of some ducks, and much to his surprise, felled the bird. He was even more surprised to find it alive. What made the bird fall remained a mystery, however, because there were no wounds visible. "Must have been shell-shock," Henson concluded.
