## CAUSE OF CANCER

Among the laity, a belief in the hereditary nature is quite strong. But research and investigation does not produce evidence to uphold such a belief. Likewise, the belief in the contagion of cancer is not supported by evidence. Even by the transplantation of grafting of the cancer tissue into other subjects, the highest rate of "takes" has been only two to three per cent. In the discussion of cancer, reference is made to the cancerous "susceptible individual" or cancerous "age group." Neither of these stand as a basic cause. The "age group" period is usually considered from age 35 to 70 years, reaching its peak in women at the age of 55 and in men at 65. This is not due to age alone. It is the result of a combination of conditions which have been allowed to gradually develop within the organism over a period of time. Prevent this and cancer will decrease. Naturopathy will assist you in preventing and in removing these conditions.

## SUPPER IDEAS to get EXTRA RED POINTS!

**SAUSAGES, APPLE RINGS** and mashed potatoes for rainy April nights. Keep draining off the fat as you cook the sausages. Fill up your fat salvage can. Every drop is needed by our country for the battlefield and home-front essentials.

**CORNEB BEEF HASH** can be made with a little meat and lots of potatoes, and still be superb. When you're preparing the corned beef, remember to save those little trimmings of fat. Melt them down; strain them into the salvage can.

**CREAMED CANNED FISH**, when it's popped into a casserole and under the broiler to brown, looks like company's coming. But be sure you pour off the oil it's packed in... Remember, it's the small amounts, that soon add up to a pound and those very welcome 2 extra red points and 4 cents! This message has been approved by WFA and OPA and paid for by Industry.

**We Must Save More Used Fats!**
