Electric Irons for Civilian Use Soon

Washington, April 25—(U.P.)—The war production board today authorized production by 33 manufacturers of 522,144 electric irons in the second quarter of 1945.

Nearly all the irons will be channeled into the civilian market, only a small percentage going to the armed forces.

WPB emphasized that the irons will not be rationed and a certificate testifying to the producer's need for an iron will not be required.

AFL Feels Slighted in Passing Out Of S.F. Transportation

Washington, April 25—(U.P.)—The American Federation of Labor today criticized the state department because it provided transportation facilities for a large Congress of Industrial Organization's delegation to San Francisco, but failed to do as much for the A. F. L.

The A. F. L. Weekly News service reported that the state department had provided special cars for the C. I. O. president, vice-presidents and a group of foreign labor representatives sponsored by Sidney Hillman, chairman of the C. I. O. political action committee. It charged this was done after the department told the A. F. L. it could furnish traveling space only for one consultant and an alternative.

"If the facilities of the state department or of any other government agency have been extended to obtain transportation for its vice-presidents," the A. F. L. said, "the A. F. L., which is a much larger organization and represents far more American workers, should at least get similar consideration."
