CUBS MOVE INTO FIRST PLACE ON WYSE'S PITCHING

Huris Near No-Hit Game—Cincy Blanks Cards; Other Scores.

New York, April 28 — (U.P.) — Hank Wyse, a six-foot right-hander, pitched the Chicago Cubs into first place in the National League today and came within five outs of baseball's hall of fame.

Bill Salkeld, rookie catcher who was the second man up for the Pirates in the eighth inning, slashed a line single to right center field and Wyse's no-hitter was gone. The blow took some of the lustre off the Cubs' easy 6 to 0 victory, their sixth in a row, but didn't keep them from moving past the New York

Max Butcher was no puzzle to Chicago and the Cubs shook him for 12 hits and six runs in the first five innings.

In another stirring pitching performance at Cincinnati, the Reds beat the St. Louis Cardinals 1 to 0, scoring in the ninth. Arnold Carter was the winning pitcher, although he gave six hits to the five garnered by the Reds off Blix Donnelly. Mesner scored on Mallory's error on Clay's outfield fly. The defeat was costly to St. Louis in that Marty Martin, shortstop, sprained his ankle trying to steal home in the ninth.

The New York Giants "walked" themselves out of first place going into the ninth with a 3-1 margin over Brooklyn. Van Mungo walked the first two men. Adams relieved him, got one man out and walked two more, forcing in a run.

Joe Mack's single with the bases loaded in the eighth gave the Boston Braves an 8-to-7 win over Philadelphia.

In the American league, Al Benton of Detroit won his second straight game, a two-hit 5-to-1 victory over Cleveland.

Nick Etten won a ball game for the New York Yankees, his sixth-inning home run tying the score at 1 to 1 with Washington and his single with two on and two out in the 13th chasing home the winning run in the 2-1 decision.

GENOA LIBERATED, BRESCIA, BERGAMO TAKEN BY ALLIES

Rome, April 28 — (U.P.) — Racing Allied armies seized Brescia and Bergamo, on the fringes of the Swiss Alps, and liberated the major port of Genoa today as dispatches from Switzerland reported that other U. S. troops had bisected north Italy by reaching the frontier town of Como.

A special Allied task force ended all organized resistance in Genoa an official communique announced, and took 6,000 German prisoners. An additional 300 Germans taken captive by Brazilians at Collecchio, six miles southwest of Parma, brought the toll of prisoners taken in the whirlwind offensive that was rapidly tearing apart the remaining Germany army, toward 80,000.

(The Swiss radio, heard in London, said Italian partisans had concluded an agreement with the commander of German troops under which the Germans would stop fighting in Piedmont, the province along the upper Franco-Italian frontier, and in Lombardy, which extends east of Piedmont and along the Swiss frontier.

(The Swiss broadcast quoted the Milan newspaper Italia Libera, or Free Italy, as its source. It said that under the agreement, German units will remain where they are for the present.)

REPORT FUHRER DEAD; VERY SICK

London, April 28 — (U.P.) — American troops captured Hans Goebbels today and reports from Switzerland said his notorious brother, Paul Joseph Goebbels, Nazi propaganda chief, Adolf Hitler and Hermann Goering, all had been killed.

Another report, from the Exchange Telegraph's Stockholm correspondent, said that according to reliable diplomatic circles there, Hitler is completely helpless and probably unconscious because of a brain hemorrhage.

Glider Delivery Of Newspapers Is British Forecast

London, (U.P.) — Soon London morning papers may be delivered by glider train to cities throughout the British Isles.

This is the opinion of Sir Miles Thomas, vice-chairman of the Nuffield organization, the British equivalent in size and scope of the Ford Motor Co. National daily papers printed in London must travel the length of Britain, sometimes a distance of 900 miles, and shipment by glider train would greatly speed the news distribution. The papers would be carried by glider until they reached their "objective" and then parachuted to earth in bundles.

Sir Miles thinks that a light
