New York, May 3.—Industrial and utility stocks more than made up their losses of the past two sessions in a strong, moderately active stock market session today.

The industrial average reached a new high since September 9, 1937 while the utility was at its best since April 21, 1937. Rails also were higher but they failed to make up the sharp decline of Tuesday.

Grains advanced sharply under the leadership of wheat. European bonds spurred on anticipation of an early conclusion of the war in Germany.

The general recovery was ascribed to an improved technical position. Preliminary closing Dow-Jones averages: Industrial 165.82, up 0.79; rail 58.72, up 0.48; utility 30.66, up 0.41; and 65 stocks 62.31, up 0.42.

Sales were 1,330,000 shares against 1,140,000 yesterday. Today's closing prices on selected stocks:
