

NEW BUSINESSES GET TELEPHONES

Washington, May 4—(U.P.)—The War Production Board today added all new business enterprises and members of the merchant marine and their families to the preference list of applicants for new telephones.

Previously only war plants and new business enterprises established by veterans were given priority for telephone service. In the new residential category,

war workers and members of the armed forces and their families were the only ones to receive priority.

W.P.B. said nearly 2,000,000 applications for service remain unfilled because of lack of telephones and central facilities.

YOUR CITY WATER DEPARTMENT AGAIN NEEDS YOUR COOPERATION

- Local needs together with the Camp White demand, will tax your municipal water supply facilities.
- The kind of water service the Water Department will be able to furnish during the summer will depend on the cooperation of the individual consumers.
- There will be plenty of water available for everyone if everybody will cooperate in eliminating waste and comply with the following regulations:

Please Observe These—Rules and Regulations

TURN OFF IN CASE OF FIRE:

All consumers of water shall close all faucets and fixtures immediately upon the sounding of a fire alarm. The water shall not be turned on again until the Fire Department has ceased to use the water supply to extinguish the fire. The Fire Department will indicate with the alarm when they have ceased to use the water

OPEN HOSE NOT ALLOWED:

The use of a hose without a nozzle attached, in springling or irrigating, is prohibited, nor shall the nozzle opening exceed ¼ inch in diameter.

WASTE NOT ALLOWED.

Water allowed to run waste down sidewalks, streets, or gutters as a result of sprinkling of lawn, gardens, or park strips is prohibited. When any such waste is discovered, the water may be shut off from the premises.

LAWN SPRINKLING SYSTEMS:

A lawn or garden sprinkling system shall be constructed and operated so not more than twenty (20) gallons of water per minute shall be used in any circuit or battery of sprinkling heads. Not more than one circuit shall be operated at one time. Each circuit shall have a control valve readily accessible to the Water Department Inspector.

SPRINKLING STREETS:

The use of water through a hose for sprinkling streets is forbidden under all circumstances.

FISH POOLS, FOUNTAINS, AND COOLING SYSTEMS:

Any fish pool, fountain, cooling system, or any other fixture that employs a stream of water in its operation shall be served only on a metered basis.

These rules and regulations are mandatory and any violation subjects the offender to a fine or discontinuance of service.
