

CORDON HOPEFUL U. S. MAY CANCEL SHIPSHAW DEAL

Washington, May 17—(U.P.)—Recommendation by the War Production Board for cancellation of more than half of the Shipshaw aluminum contract with Canada indicated today that negotiations may be started soon to end the entire deal.

The WPB yesterday asked the Metals Reserve Corporation to cancel the optional portion of the 257,000,000 pound aluminum contract leaving only 100,000,000 pounds that this country is still obligated to buy from the aluminum company of Canada.

The remaining portion of the order is subject to cancellation only by negotiation.

Sen. Guy Cordon, R., Ore., said today he was "hopeful" the WPB would act favorably on the recommendation of the senate small business committee that necessary negotiations be undertaken to release the United States entirely from the contract.

The Shipshaw contract, renewed to the extent of 250,000,000 pounds for 1945 last March, has been under investigation by the senate group which seeks to learn why a foreign contract for aluminum was made at a time domestic plans were being closed down.

The committee also is seeking to learn why the government originally financed vast expansion of the Canadian Aluminum company's Shipshaw facilities for production of aluminum when it contends, northwest facilities were adequate to meet U. S. demands.

Interior Secretary Harold L. Ickes told the committee on Monday that the "deal was a mistake in judgment from the beginning to end."

Eugene Synagogue Not On Campus of Oregon University

Eugene, Ore., May 17—(U.P.)—Nathan Rubenstein, member of the congregation of the Beth Israel temple in Eugene, today emphasized that the synagogue was not connected in any way with the University of Oregon, as stated erroneously in reports yesterday of the synagogue's desecration by vandals.

Rubenstein said, "It has come to my attention that certain newspaper and radio accounts of the desecration of the Jewish synagogue in Eugene stated that the synagogue was located on the University of Oregon campus. This is entirely untrue. Our synagogue, Temple Bethel Israel is located at 231 West Eighth avenue, which is some 14 blocks across town from the university campus, and has no connection whatsoever with the University of Oregon."
