

U. S. COMMUNISTS WHET KNIFE FOR ENVOY HARRIMAN

Daily Worker Charges 'Profound Hostility to Soviet Union' Since Nazis Beaten

By Lyle C. Wilson
United Press Correspondent
Washington, June 7—(U.P.)—American communists appeared today to be gunning for W. Averell Harriman, the United States ambassador to Moscow.

Harriman inherited a great deal of money including a big block of stock in the Union Pacific railroad. But he was a consistent Roosevelt-for-president man. In 1943 he was sent by the late president to Moscow.

Change Claimed
The Communist Daily Worker in a special article has charged that since the defeat of Germany Harriman has disclosed "profound hostility to the Soviet Union."

The communist organ cited a broadcast last week by Johannes Steel, a radio commentator, in which Harriman was alleged to have said that the "interests of the United States and the Soviet Union are irreconcilable."

By implication the paper said Harriman feels that the United States should declare war on Russia or, at the least, adopt policies designed to challenge the spread of communism in Europe and elsewhere.

Reds Rap Policy
The attack on him is accompanied by a new development in the communist party line here. The development is a challenge, direct or implied, to United States foreign policy as it has been since President Truman succeeded to the White House on April 12.

The procedure is to make objections on specific counts of foreign policy accompanied by implications that they are deviations from foreign policy as established during the Roosevelt administration.

In a resolution prepared by the national committee of the Communist Political Association and printed in the Daily Worker there is this passage:
"It is imperative that the American people resolutely support every effort of the Truman administration to carry forward Roosevelt's program for victory, peace, democracy and 60,000,000 jobs. It is equally necessary that the people sharply criticize all hesitations to apply this policy and vigorously oppose any concessions to the reactionaries."

all who hear him, Rev. Baker said. Evangelist Smith will speak at the Sunday morning service at 11 o'clock, at the evangelistic meeting at 7:45 p. m., and Tuesday through Friday at 7:45 p. m.

ENEMY RELEASES NUMEROUS MINES AS LAST RESORT

By Earnest Hoheroch
United Press War Correspondent
With Fast Carrier Task Force off Okinawa, May 31—(U.P.)—(Delayed)—In desperation, the Japanese are releasing large numbers of mines in the Pacific as a last-resort measure against American naval power.

I have seen these mines floating in the water all the way from here to the coastal waters of Japan, where this task force steams at will and without fear of more than token resistance from the Kamikaze—"Divine Wind"—suicide corps.

No Harm Done
In all cases, the mines have been exploded harmlessly in the water without damage to our ships. The enemy presumably hoped some of them might hit and sink an American vessel.

It is generally agreed around this force that luck has been on our side. We haven't hit one of these mines yet, but the explosions they make when we set them off are terrific. We know they probably would do some damage if we hit them.

Indiscriminate use of mines fits well into the current defense policy of the enemy—employment of suicide planes, suicide boats and flying human-controlled bombs. Conventional methods of destruction have been cast aside.

The Japanese could not beat us with power, so they are trying luck and praying for a "Divine Wind," such as the one that helped turn back a Mongol fleet centuries ago.

Slightly less than 1,000,000 cattle were reported in Washington state on January 1, 1945, a four per cent decrease from the record high of last year.

GRACE MOORE
Star of the Metropolitan Opera says:
"I have used Arrid for years and like it immensely...and I notice that Arrid is used by many of my friends in the stage, screen and radio world."

New Cream Deodorant
Safely helps Stop Perspiration
